## News For The Employees of Data General

---

March 11, 1983

*Paul Williamson*

*Peter Jessel*

### **Paul Williamson Named Director Of Compensation And Benefits**

Paul Williamson has been appointed director of Corporate Compensation and Benefits reporting to Don Bateman, vice president of Human Resources.

The new director is responsible for the development and enhancement of compensation and benefits programs, domestically and internationally, throughout the corporation.

Paul comes to Data General with more than 20 years experience in high technology industries. He was most recently manager of compensation and benefits at Analog Devices in Norwood for seven years, and previously held Human Resources positions at Sanders Associates, Texas Instruments and Honeywell.

Paul fills a position vacated when Marion Noble was named director of Home Office Personnel last October. He has a BS in business administration from Boston College.

### **Peter Jessel Appointed Business Group Director**

Peter Jessel joins Data General this month as director of the Business Group staff responsible for

the coordination of Business Division planning and strategy development. He reports to Bob Miller, senior vice president for the Business Group.

Peter was formerly senior Engineering manager for the Advanced Development of 32-bit systems at Digital Equipment Corporation. In his more than five years with Digital Equipment, he was also group manager for Systems Engineering and Product Planning for the Telecommunications Industry.

Peter was formerly on the faculty of the University of Pennsylvania where he served as undergraduate chairman for computer science in the Moore School. He was also a research associate at the Laboratory for Computer Science at M.I.T. The new director has a PhD from M.I.T. and an MBA from the Wharton School at the University of Pennsylvania. He received bachelor's and master's degrees in electrical engineering from Cornell University.

### **Quality Leadership Award Winners Announced**

Manufacturing Operations' Quarter 1 Quality Leadership Award winners recently received recognition during an extended Manufacturing Staff meeting in Southboro. Plant Manager Dave Foran congratulated the award recipients as he reviewed their accomplishments for meeting attendees.

Award winners Larry Faulkingham and Kris Eberlin were noted for their achievements in Incoming Inspection. Their efforts have resulted in significant DPU (defects per unit) reductions on incoming printed circuit boards (PCB). Larry, a vendor engineer, established a solid link of communications with Data General-Portsmouth, developing an accurate reporting system and detailed summaries regarding PCB quality. In addition, Larry facilitated the PCB manufacturing process in Portsmouth and helped them to meet quality goals.

Incoming Inspection Supervisor Kris Eberlin worked with Larry providing detailed data and quality reports for Portsmouth. He also demonstrated his leadership skills by supporting Incoming Inspection

employees through training on enhanced inspection procedures.

Robert Alger, supervisor of Low Volume Operations, received the Quality Leadership Award for his outstanding contribution to the start-up of the new program. Robert's effective use of employee resources during this initial phase has resulted in an excellent product and contributed to the success of this new operation.

Gerry Goguen, Software Manufacturing engineer, was the award winner from Reproduction Distribution Services. His accomplishments include upgrading quality control of computerized inspection systems, as well as instituting a 100 percent recheck of customer service media.

Metal Fabrication Supervisor Paul Lucier was selected for his vital role in assuring that only the highest quality products are shipped from the Southboro facility and that timely customer deliveries are maintained.

Quality Leadership Awards are announced each quarter in Southboro. The awards signify the part each winner has played in strengthening the quality goals set at Data General.

*Award winners recently honored were: (left to right) Robert Alger, Paul Lucier, Jerry Goguen, Larry Faulkingham and Kris Eberlin.*

## Westboro

### Educational Services Group Completes Training

The Course Development and Media Products (CD & MP) group of the Educational Services department has just completed development of its latest operator-level training self-study. The course, titled AOS, AOS/VS Operator, is geared to those who use the AOS or AOS/VS operating systems daily.

The modular, self-paced package includes all the instructional materials needed to adequately complete the course. Its modular design allows users to chart their own path through the instruction - concentrating on those areas they need to learn. Self-pacing allows them to speed up or slow down their study schedule to fit their work schedule. Audiotapes present the comprehensive lectures, which are reinforced by numerous illustrations, examples and photos in the student guide.

In addition, carefully constructed lab exercises walk users through operations step-by-step. Students can test their mastery of the subject with frequent quizzes that they score themselves.

The CD & MP project team consisted of:

Bill Mahoney	John Thornton
Jo-Anne Thompson	Louise Weber
Carmel Coughlin	Lillian Cochran
Bill Mettey	Phyllis Southland
Jose Ramos	Eric Fordham

The AOS, AOS/VS Operator self-study (053-45) as well as the AOS, AOS/VS User self study are available to employees. If you are interested in either of these courses, contact Barry Smith at x4056.

*Those who contributed to the development of the AOS, AOS/VS Operator self study course were (front row, left to right): Eric Fordham, Louise Weber, Phyllis Southland, Carmel Coughlin and Bill Mahoney. In the back row are (left to right): John Thornton, Jo-Anne Thompson, Lillian Cochran and Jose Ramos.*

### Watch Your Step

Exercise is important to many employees at Data General. During lunch breaks, some employees may choose to jog while others enjoy a walk in the fresh air. In order to make this exercise period a safe one, pedestrians are asked to walk two abreast, toward the traffic and not obstruct vehicles travelling on the access roads. It is important to remember to be cautious as well as courteous while walking or driving on Data General property.

## Employees Support Blood Drive

Nearly 200 employees donated blood at the two-day blood drive in Westboro, conducted last week in conjunction with the American Red Cross. Marty Kelly, an ECO coordinator in Engineering Services, goes through the pre-donation testing with Red Cross Nurse Janet MacMillan. This much-needed resource will be provided to local hospitals.

## Southboro

### Software Distribution Packages PRIDE

Improved efficiency and a productive work environment remain a constant goal of Southboro's PRIDE Circle Program. The Software Distribution PRIDE Circle has made a significant contribution to that goal.

Through detailed research, the group identified numerous issues related to their kitting operations. The department packages documentation and software for shipment to customers. One of the kitting steps includes assembling boxes to prepare them for packing.

Until recently, manual tape machines were used in this preliminary kitting step. The PRIDE Circle felt that these manual machines slowed production. Through statistics the Circle compiled, it believed that automated taping machines would improve the department's productivity. Even with the initial expenditure, the department could realize a substantial cost and labor savings while improving department output.

The PRIDE Circle presented its findings last week to a group of managers. Its proposal to purchase

the new taping machines was accepted immediately, and the taping machines already have been installed. In addition, the PRIDE Circle was invited to reenact its findings and proposal at a meeting held by Southboro Plant Manager Dave Foran.

Nancy Jones, one of the presentors, states, "The lines of communication really opened up after this presentation. This has been a real inspiration for us. As a group, we are accomplishing our goals through the PRIDE Circle Program." Another Circle member added, "We saw our positive results work right away, it's a great feeling."

Members of the Software Distribution PRIDE Circle are (seated, left to right): Jane Ranney, Nancy Jones, Gloria Amorelli, and (standing) Circle Leader Diane Conroy.

### Realizing Goals Through Data General

Tom Wing

Tom Wing is accomplishing his goals while contributing to the success of the Software Reproduction department. A Software Support Technician, Tom joined Data General as a test operator shortly after his graduation from Marlboro High School more than five years ago.

As a talented music student, Tom was awarded several prizes, including a scholarship to study at

the University of Lowell. Instead he chose a career in high technology. Tom states, "Even though I really enjoyed studying music, I turned the scholarship down. It's difficult to maintain a career in music and I wanted to develop solid marketable skills."

While working on the second shift, full-time for the last four years, Don has carried a full course load. He has excelled in both endeavors. Tom graduated cum laude from Worcester Jr. College with an associate's degree in electronics. This spring, he will realize a long-term goal when he graduates from Central New England College with a BS in electrical engineering. On top of all that, Tom is achieving something only one student in a class can, his current class rank is number one.

Also at Data General is Tom's mother, Mary Wing, of Southboro Manufacturing Training. His brother Bill of Product Verification is working towards a bachelor's degree in industrial management at Northeastern University.

Last year, the brothers shared the same five year service anniversary. Both have benefitted from Data General's Tuition Reimbursement Program. According to Tom, "The Tuition Reimbursement Program has been terrific. Going to school enhances my ability on the job and working helps me understand the practical applications of what is taught in the classroom." He further explains that students who spend four years in college with little exposure to practical situations do not always realize what lies ahead after graduation. "It has been an advantage attending college while working at Data General.

"It's been a busy four years," he says, "but worth it."

## College Fair Offers Career Choices

Tom Francis and Nick Baker of Southboro Systems Integration Operations (SIO) represented Southboro at a recent career day at Central New England College in Worcester. The college opened its doors to juniors and seniors from high schools throughout Worcester County.

Tom and Nick, who were among many representatives from various professions, saw a strong turn-out for their Data General display. On hand during several informational meetings were an array of printed circuit boards (PCB) and an ENTERPRISE Desktop computer. The students learned how a PCB is built and watched some sample programs being run. Another attraction was the opportunity to play a few computer games. Also covered during the meetings were the courses students should take to prepare themselves for technical college.

Tom, a technical writer, explained that a variety of backgrounds, not just engineering, are needed in the computer industry. He says, "As a field develops,

options open up for highly skilled workers from many disciplines." Support functions such as marketing, technical writing and training were just a few of the career paths Tom told the pupils about.

Nick thought the students were very enthusiastic about computer technology. He believes the exchange at Central New England College was a good opportunity for Data General to help students make career choices to benefit themselves and the computer industry. He adds, "A program such as this career day helps to familiarize young people with what they should look for in a college program. It is important for them to be aware of the kind of employees a company like Data General will be looking for in the years ahead."

## Worcester Editors Tour Graphics

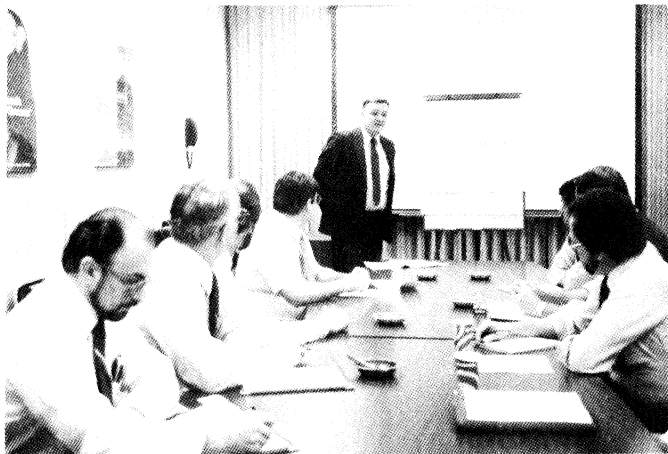

*Southboro Graphics Supervisor Wayne Eaton (left) discusses printing techniques with members of the Worcester County Editor's Council. Wayne gave the newsletter editors, from various companies in the Worcester area, a tour of the Building 5 Graphics area. With more than 30 years experience in printing, Wayne used his knowledge and experience to effectively answer the many questions which were asked. Included in the tour were Southboro's Photo Lab, Pressroom, Bindery and Stockroom.*

## Southboro Shares In Safety

Ken Lowry has been very active the past few months spreading the word about safety.

As Safety Committee Chairperson, Ken has been making presentations at staff meetings throughout Southboro. Ken's presentations include the goals and accomplishments of the committee. During talks, he stresses the role each employee plays in maintaining a safe work environment. Ken also requests that managers and supervisors reinforce this message within their departments. "The committee

can't do this alone. We need everyone's full support. We have a very active campaign going and will further expand our efforts."

*Safety Committee Chairperson Ken Lowry discusses a safety topic at a recent meeting.*

## Milford

### People

*Laurel Dickerson* has joined Data General as a quality and measurement specialist responsible for the quality assessment activities in Field Engineering Education.

She comes to the company from the University of Florida where she was an assistant professor.

Laurel received her bachelor's degree from Parkville College and a master's and doctorate degrees from Michigan State University.

*Rosemary Langlois* has been promoted to quality and measurement analyst. Her responsibilities include needs assessments, tasks analyses and evaluative studies for course development and implementation in Field Engineering Education.

Rosemary has been with Data General for six years, most recently as a skills administrator in Field Engineering Education.

Rosemary has an associate's degree in business administration from Cuyahogo Community College and is completing a BS in business administration at Clark University.

Both Laurel and Rosemary report to Jim Miller, manager of Field Engineering Quality and Measurement.

## Field Engineering Employees Cited At Awards Conference

Ten Field Engineering employees were recognized at last month's fourth Annual Excellent Service Awards Conference in Orlando, Florida for their outstanding accomplishments.

The employees, including seven from Milford and one from Westboro, were invited to the conference for their contributions to the overall success of Field Engineering and Data General.

Attending from Milford were: Senior Test Supervisor Bill Borus; Senior Financial Analyst Brian Cleary; Test Engineer Harry Curci; Senior Programmer Analyst Janet Curley; Service Support Specialist Sherri Heath; Senior Contract Negotiator Steve Kellett; and Materials Planner Bob Kenny.

APM Group Leader Rich Maksian attended from Westboro. Also at the conference were Field Logistics Manager Skip Bitelli from Pittsburgh and Storeskeeper Rick Ruybilia from Colorado Springs.

## Field

### People

Frank Zamaroni has been named Field Engineering branch manager in San Francisco. Frank comes to Data General with more than 15 year's experience in instrumentation training and customer service management, most recently at Finigan Corporation and Varian Associates.

Frank has attended the University of California at Berkeley and Contra Costa College.

## Directory Revised

Data General's Domestic and International Sales/Systems Directory has been revised. The new directory is available through the literature distribution process and should be ordered via part number 700-000098. The directory is for internal use only.

## Benefits

### When To Obtain A Second Surgical Opinion

These days smart shopping doesn't end at the supermarket checkout. Wary consumers are also concerned about medical costs for themselves and their families.

In order to avoid extra medical costs and the discomfort related to surgery, the Data General (Prudential) Medical Plan now requires second opinions to qualify for full payment of certain non-emergency surgeries.

Data General's Second Surgical Opinion Program provides a way for you to receive a second opinion on proposed surgery and acquaint you with alternative methods of treatment. Effective April 1, you must receive a second surgical opinion from a participating Board Certified Specialist (a licensed physician) for many non-emergency surgeries. There is no charge to you for this opinion. The specialist will submit the bill directly to Prudential. If the second opinion does not confirm the medical advisability of the proposed second surgery, another examination and opinion are required from a third specialist.

If you decide to seek surgery following a second opinion confirming the need for surgery or a third opinion, medical charges will be paid under the usual provisions of the Data General (Prudential) Medical Plan. Remember, the choice for non-emergency surgeries remains yours. However, if you do not follow the Second Surgical Opinion Program only 80 percent of the reasonable and customary hospital, surgery and other related charges will be covered.

You will be provided with a list of specialists, who are conveniently located, for second opinions. If a specialist is not available in an area near you, a second opinion will not be required and surgery will be paid for as if a second opinion had been obtained.

A second surgical opinion is required for the following non-emergency surgeries:

- Cataract Removal
- Cholecystectomy (gall bladder removal)
- Coronary Bypass
- Hemorrhoidectomy (removal of hemorrhoids)
- Herniorrhaphy (hernia repair)
- Hip Replacement
- Hysterectomy
- Laminectomy (removal of vertebra disc)
- Mastectomy (partial or complete breast removal)
- Meniscectomy (removal of knee cartilage)
- Prostatectomy (removal of the prostate gland)
- Salpingectomy/Oophorectomy (removal of uterine tube and/or ovary)
- Septoplasty
- Submucous Resection (deviated septum repair)

- Tonsillectomy
- Varicose Vein Ligation/Stripping (separating or tying of veins in leg).

Non-emergency means that a slight delay would not cause life-threatening complications and that the surgery can be scheduled at the doctor's and patient's convenience.

### When A Second Opinion Is Needed...

If your doctor recommends non-emergency surgery call the Prudential Insurance Company collect at (617) 236-3409 to obtain a list of Board Certified Specialists in your area. Identify yourself as a member of the Data General (Prudential) Medical Plan and indicate your desire to acquire a second surgical opinion for upcoming surgery. If you have further questions contact your Data General Benefits administrator.

## Activities

### WINTERFEST

Despite the warm weather, 'Winterfest' is still scheduled for Saturday, March 12 at Mount Wachusett in Princeton. Tickets will be on sale in the cafeterias at all locations until 1 p.m. today. The price per person is: \$7 for downhill skiing from 8 a.m. to 4 p.m. and \$4.50 for downhill skiing from 3 p.m. to 10 p.m. The staff at Mt. Wachusett is confident that the downhill skiing will be in good condition, however, there is no snowmaking ability for cross country trails so that will depend on the forecast. If it should snow, the charge for cross country skiing will be \$1.50 per person, all-day.

Some special activities also have been arranged. The first Data General Ski competition will commence at 3 p.m. and inner tube racing (bring your own inner tube) is scheduled to begin at 1:30 p.m.

For tickets contact:

Gail Casey in Westboro Personnel (no calls please).  
John Watkins (x7477) or Jim Shea (x7987) in Southboro - Building 4  
Karen Crandel or Terry Thibault (x7903) in Southboro - Building 5  
Debbie Cox (x2626) in Milford.

If additional information is needed contact Debbie Hixson (x5003) or Sue Theriault (x5691) in

Westboro.

**NOTE:** Make checks payable to the Data General Activities Committee. No refunds or exchanges will be allowed.

### ***Softball Fever***

A field in South Bellingham has been acquired for use during the 1983 Data General Softball season. As a result of this additional field, the season has been extended to 20 games per team.

With the first pitch of the 1983 season just around the corner, the league still needs people for the following jobs: Mini News reporter; umpire and rainout coordinator; and a league secretary.

The final pre-season meeting will be held March 17 at 5:30 p.m. in the Westboro cafeteria. All teams must have a representative present or your team will be withdrawn from the league. During the meeting, league rules will be discussed. At the same time, it is imperative that you bring up any time or day restrictions your team will require prior to the issuance of a schedule. If you have any questions, call Scott Vottiero at x6716.

### ***Toastmasters Host Area Speech Contest***

Data General employees are invited to attend the Area 13 Toastmasters Speech Contest on Thursday, March 24 at 7:30 p.m. in Westboro's Guest Marketing Room 10).

The winner of the contest goes to the division contest next month and can ultimately be a finalist in the Toastmasters International Speech Contest, to be held in San Diego this summer.

Area 13 is comprised of clubs in central Massachusetts between Worcester and Framingham. Besides the Data General Toastmasters, other Toastmaster clubs competing in the area contest are from Waters Associates in Milford and Digital Equipment Corporation in Marlboro and Hudson.

The Data General Toastmasters club meets Wednesdays at 11:45 a.m. in Westboro's Guest Marketing. Data General employees are encouraged to attend.

### ***Toastmasters Welcome Guest Speaker***

The Data General Toastmasters will feature a guest presentation by Dr. Bettye Lewis-Underhill on March 23. Her talk will focus on career/life planning and is entitled 'Looking The Rest Of Your Life In The Face.' All employees are welcome to attend. The meeting, which begins at 11:45 a.m., will be held in the Guest Marketing Conference room located in Building 14B, Module F.

### ***Chess Tournament Reaches Midpoint***

The Data General Chess Tournament has passed its mid-way point with the completion of Round 3.

Two more rounds remain in the 'battle-of-the-minds' tournament which includes 20 Data General employees.

Leaders in the tournament thus far are: Vitaly Goldin and Stu Schulman (both undefeated with 3 points), John Burroughs and Tom Maziarz (2 1/2), and tied with 2 points are Dave Abramo, Charlie Bures, Camillo Davis, Mike Pavlov and Mike Roman. The tournament is scheduled to finish later this month.

Meanwhile, the Data General Chess Club continues its Tuesday lunchtime games at noon. The schedule for March is: March 15 - MDC classroom; March 22 - MDC classroom and March 29 - Engineering classroom.

### ***Wallyball News***

With two weeks to go in the Data General Wallyball League, Strange Chicken, with a record of 41-4-0, leads the Recreational League. Following close behind are: Lynch Mob (35-9-1); Maxwalls (26-18-1); DS&C (26-15-1); Spikers (23-21-1); Sheetrocks (14-31-0); Plague (14-28-0); Software (10-29-0) and WCIF (7-41-0).

In the Competitive League, the Keymen are secure in first place (45-2-1). The Keymen are followed by the Wallbangers (28-19-1); Engineering (26-22-0); SIE (23-16-0); Fubar (21-21-0); Jeu D'Esprit (21-21-0); FED Slammers (21-21-0); Corporate Materials (6-39-0) and PQE (6-36-0).

**NOTE:** Anyone interested in receiving information on the Spring/Summer Wallyball League should call Tom Francis at extension 7487 in Southboro.

### ***That's Entertainment...***

#### ***Come To The Circus***

The Ringling Brothers-Barnum and Bailey Circus will be at the Centrum on Thursday, April 21 at 8 p.m. Tickets are \$7 per person, children under 2 years old are admitted free. Send ticket requests to: CIRCUS, MS D127. Requests will not be honored without payment.

#### ***Livingston Taylor At Cultural Center***

Livingston Taylor will perform Saturday, March 26 (8 p.m.) at the Data General Cultural Center in Woodstock, Conn. Tickets are \$6.50. Contact Rita Fristoe at extension 4712 for reservations.

#### ***Like To Travel?***

Volunteers are needed for a travel committee which will determine destinations and schedule group travel opportunities for Data General employees, their families and friends. Send name, extension and mail stop to: GROUP TRAVEL, MS D127.
