News For The Employees of Data General

March 22, 1985

Neil Rossen Named A/FE Controller

Neil Rossen

Neil Rossen has been appointed Americas/Far East (A/FE) controller reporting to John Gardner, controller for Worldwide Field Operations.

Neil joined Data General in 1982 as controller of Data General's United Kingdom subsidiary. Prior to that, he had spent eight years with Data 100 (which was acquired by Northern Telecom in 1978) in various European financial management positions including deputy European controller and director of European treasury services.

Neil is a certified public accountant and worked in public accounting with Arthur Andersen in South Africa and with Peat Marwick Mitchell in the United Kingdom. He recently completed a senior management executive development program at Columbia University in New York.

"Maintainability" Seminar In Woodstock Is Postponed

The one-day seminar on Reliability/Maintainability Engineering, scheduled for Friday, March 29, at Data General-Woodstock, has been postponed to Monday, June 17.

Data General Activities Committee Official Logo

Activities Director Richard Lawler (right) congratulates Mark Cerny of Data General-Milford for his winning entry in the Data General Activities Committee Logo contest. A programmer analyst within Field Engineering Management Information Systems, Mark joined the company almost four years ago. He transferred to Milford from Fountain, Colorado last September. Chosen among 45 entries, Mark's winning design has earned him a \$50 gift certificate to the restaurant of his choice.

Data General Enhances Hospital Operations

Data General recently donated an ECLIPSE MV/8000 II computer system and associated peripherals to the Framingham Union Hospital. The hospital information system enhances the quality of health care as it reduces costs and time spent in providing patient services.

Patients at the Framingham Union Hospital are registered or admitted more quickly and efficiently, thanks to a hospital information system recently donated by Data General. The computer system, valued at \$250,000, is helping to improve the quality of health care as it reduces cost and time spent in providing patient services.

Data General President Ed de Castro will formally donate an ECLIPSE MV/8000 II computer system, two 277-megabyte disk drives, a tape drive unit and seven terminals, during a dedication ceremony to be held this morning at the medical facility on Lincoln Street.

"It is very rewarding to see Data General equipment assisting the Framingham Union Hospital health care staff to provide the most efficient services possible," says Ed. "Through this donation, Data General is extending its support for the communities where we live and carry out business."

The system is used for the entry and retrieval of patient information, nurse station orders, message routing and as an educational tool for nurses.

Patient admitting, registration and medical records are easily entered and reviewed in a matter of seconds on one of four Data General DASHER D210 terminals located at the admissions desk.

"For a repeat visit to the hospital, for admission, testing or an emergency room or clinic visit, the registration procedure will literally take seconds," says Robert Borr, Director of Information Systems at Framingham Union Hospital.

As a nurse station communication system, nurses are able to enter and retrieve orders, messages, charges and reports without time-consuming paperwork. Using the computer, the nurses are allowed more time for direct patient care.

Physicians also may use the hospital information system to place orders for blood tests with the laboratory, for example. The lab receives the doctor's message, draws the blood and sends the test results back to the requesting station via the computer. This stream-lined procedure eliminates excessive paperwork and phone calls, saving the hospital time and money.

"Because health care professionals will spend less time on the phone and doing paperwork, they can spend more time with patients," stresses Robert.

The hospital information system is an integral part of the Framingham Union Hospital's School of Nursing curriculum. By familiarizing themselves with the capabilities of the Data General system, nurses can administer the best patient care using the most current advances in medical technology.

States Framingham Union Hospital President Edward Clasby, "This overall system is invaluable in terms of direct patient care benefits and cost savings and will be an important teaching tool for our many educational programs including our own School of Nursing and affiliation with Boston University Medical Center."

According to Ed de Castro, "Data General feels that improving health care and providing quality education are the two most significant contributions Data General can make on behalf of its employees and their families."

The Data General equipment is the first step in project to fully automate the operation of the hospital from patient admission to release which is expected to be completed by 1986.

A doctor at the Framingham Union Hospital reviews a patient's medical records via a Data General DASHER D210 terminal.

Data General Supports Local United Way

Data General recently contributed \$6000 to the Greater Marlboro United Way in an effort to help the organization provide basic and special services to area residents. During the presentation ceremony, Bob Contursi, senior Marketing specialist in the Technical Products Division (right) and Don Bateman, vice president of Human Resources (left) demonstrate a GW/4000 graphics workstation for Ann Hurd, the United Way campaign co-chairperson, and Bruce Ledoux, chairperson of the campaign's Industrial Division.

Coming And Going...

To ensure strict property control and building security at all times, Corporate Security enforces the following hours at Data General-Westboro:

- The lobby in Building 14A is open 7:30 a.m. to 9 p.m. Monday through Friday and is closed weekends;
- The lobby in Building 14B is open 24 hours a day, seven days a week;
- All camera controlled booths (at West, North, Northeast and Northwest entrances) are available to employees Monday through Friday from 6 a.m. to 9 p.m. except the West booth in 14A which closes at midnight weeknights for exiting only. All are closed weekends.

Technical Meeting Series Continues At Woodstock

Artificial Intelligence And Expert Systems

Field Engineering is sponsoring a one-day seminar on "Artificial Intelligence and Expert Systems" Monday, April 8 at Data General-Woodstock. The seminar is designed for employees involved in design and development.

Led by Dr. Henry Eric Firdman of Henry Firdman and Associates, the seminar will focus on the characteristics of artificial intelligence (AI), AI technology and tools, case studies and the strategic planning of AI ventures.

Sign-ups will be accepted until Wednesday, April 3. Manager's approval is necessary and \$75 per employee will be charged back to the department. For more information and reservations contact Robert Dourandish at Westboro extension 3840 or via CEO at DOURANDI R:FE1K28.

Data General, NSC Sign Joint Marketing Pact

Data General and Network Systems Corporation of Minneapolis, have signed a marketing agreement for the NSC HYPERchannel local area network (LAN). HYPERchannel will run under the AOS/VS operating system on most members of Data General's ECLIPSE MV/Family of computers except for the MV/4000 SC and MV/4000 DC business systems.

HYPERchannel allows ECLIPSE MV/Family users to connect into local area networks with hardware from IBM, Digital, Cray, Control Data, Honeywell, Burroughs, Sperry-Univac, Perkin-Elmer, and Modcomp. HYPERchannel is widely used in the government, petrochemical and academic data processing communities.

Lose Something?

Have you ever lost a personal item and looked for it unsuccessfully? If this happens to you, try the Site Security department's "Lost and Found" drawer. Right now you can find articles of men's and women's clothing, jewelry, prescription eye glasses, keys of every description, and even calculators.

All property turned in to Security is held for 30 days, and if unclaimed, it is discarded.

Call Site Security at extension 6100 in Westboro or stop at the office, MS C111 (near the main cafeteria).

Graphics Open House

Employees are invited to attend an open house on presentation graphics sponsored by Manufacturing Information Resource Management on Tuesday, March 26. Tips on using graphics as presentation tools will be offered, as well as a demonstration of the two pen plotter that can be used with Trendview, Data General's graphics package. Informal, one-hour sessions will be held Tuesday at 10 a.m. and 2 p.m. in the Manufacturing Information Resource Center located outside of B223. Manager's approval is necessary.

Manager Goes West

Bob Andrews, manager of Industrial Automation Programs, is the first Technical Products Division (TPD) employee to pack his office belongings and move to Denver this week. TPD is relocating to Denver, Colorado in a move which continues the diversification of Data General resources begun in the mid-1970s.

Westboro

Security Notes

Employees are reminded that the Security department provides escorts to accompany employees to their cars after sundown. The service is provided as a safety precaution and is not to be used for help in hand-carrying material out of the building. Interested employees can call Security at extension 6100.

Copy Key Readings Due

Copy key readings are due in the Westboro Copy Center on Monday and Tuesday, March 25 and 26. Call extensions 6141 and 6073 with readings.

Tax Forms Available

The Data General Tax department has Personal Income Tax forms available to employees. The forms can be picked up in the Tax department, mail stop F231 or employees can contact Anne Harrington at extension 5668 from 8 to 8:30 a.m. and from 5 to 5:30 p.m.

Only Federal tax forms are available. Due to a limited number of forms, only one copy of each form requested will be supplied.

People

In A/FE...

Latin American Marketing Manager **John Butler** has joined Americas/Far East, reporting to Latin American General Manager Dick Bright. John oversees Marketing activities for all Latin American subsidiaries and distributors.

Before coming to Data General John was distributor manager for Hewlett Packard's Latin American subsidiaries.

John holds a BS in business administration from the University of Arizona at Tucson.

In Public Affairs...

Joy Ibrahim joins Employee Communications as an associate communications writer, reporting to Employee Communications Manager Steve Nikitas. Joy coordinates and edits internal newsletters for all Data General U.S. Manufacturing facilities.

With Data General since 1983, Joy most recently was in Area 1 Human Resources at Wellesley.

Joy earned a BA in political science from Boston College while working as an intern in the governor's press office, state senate and as a State House tourguide in Boston.

In ISD...

Margie Reed is promoted to a Marketing communications specialist, reporting to Gerri Rebello, manager of Information Services for the System Supplier Program. Margie is editor of **Straight Talk**, a newsletter for Data General's System Suppliers and Commercial OEMs. She is also responsible for other department publications.

With Data General for more than six years, Margie was most recently with Field Engineering in Milford, and before that at the Wellesley Sales office, Industry Sales and Business Product Marketing.

Tom Cappelli joins the System Supplier Program as group manager of System Supplier Development, reporting to Director Dick Farwell. He is responsible for recruiting, developing and monitoring System Supplier activity. Tom oversees Supplier Development Programs, Business Planning, and Information Services.

With Data General for five years, Tom was most recently national Field Marketing manager within Field Service, and before that he held regional and home office management positions.

Tom holds an executive master's degree from Anna Maria College and a BS in business administration from Nathaniel Hawthorne College in New Hampshire.

Reporting to Tom is **Ed Weisberg**, a business planner, responsible for business analysis and planning for the System Supplier Division.

Ed comes to Data General from Wang Laboratories where he was responsible for product support planning and corporate product forecasting.

Ed holds a master's degree in management from the Sloan School at MIT and a BA from the University of Pennsylvania.

In Finance...

Stock Option Administrator **Bhupinder Randhawa** joins the Stock Option department, reporting to Supervisor Sue Singer. She handles all Data General stock plan activity.

Prior to joining Data General Bhupinder was a stock option administrator with Digital and prior to that she was an assistant accountant with Alder Valley in the United Kingdom.

Bhupinder earned bachelor's and master's degrees from Punjab University in India.

Milford

People

In FE FCO Control...

Field Change Order (FCO) Control welcomes **Stephen Foscaldo**, a senior FCO planner, handling storage peripherals. He reports to Andy Alholm, manager of FCO Control Product Support Engineering.

Steve comes to Data General after 10 years with Honeywell Information Systems where he was most recently a senior material planner, and before that held other Field Engineering positions in materials and accounting.

Steve holds a BS in management from Bentley College.

In FE Technical Publications

Gregory Carpenter joins Field Engineering Technical Services as data base administrator for On-line Information Service. He reports to Gene Corridori, manager of Field Engineering Technical Publications.

Greg comes to Data General from Amherst Computer Associates where he was responsible for designing and implementing a multi-user transportation management database.

He holds a BS in economics from the University of Massachusetts.

PRIDE Circle Update

Guide Task Circle Develops Guide

The Guide Task Circle evolved in Milford in an effort to reduce the amount of time that technicians spend on reoccurring component and ECO (engineering change order) failures in the Automated Test Equipment (ATE) area.

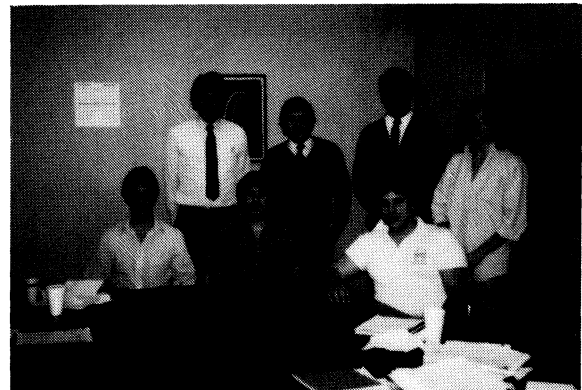

PRIDE Circle Leaders Karen Sutherland and Jim Ciuffetti along with members Michael Black, Tony Laganelli and Dan Stachowski have spent the last several months analyzing and attempting to resolve this concern.

To improve time efficiency, technicians working on the various testers in the ATE area recorded all component and ECO failures and the subsequent solutions so that reoccurring problems could be referenced and resolved more easily. This "Troubleshooting Guide" will result in cost-savings of nearly \$90,000 a year for the ATE area.

The Guide Task Circle made further recommendations to the Steering Committee last month. Members asked that the manual system be automated and the guide be applied throughout the Product Repair Center (PRC) to further increase savings. The Steering Committee approved the project.

Charles Diamond, senior Industrial engineer, is writing a program to meet the needs of the "Troubleshooting Guide". Charles reports to Larry Johnson, who also has been a valuable resource for the Circle.

The results of the project will be increased productivity throughout the PRC, reduced costs in the affected areas, reduced training time for employees, reduced repair costs of printed circuit boards and faster turnaround time.

Guide Task Circle members are: (standing, left to right) Charles Diamond, Dan Stachowski, Larry Johnson, Karen Sutherland; (seated) Tony Laganelli, Jim Ciuffetti and Michael Black.

Field

Norcross Office Relocates

The Norcross, Georgia office for Sales, Sales and Systems, Dealer Division, Personnel and Area/Region Field Engineering has relocated to the following address:

3617 Parkway Lane
Royal Peachtree Corners
Norcross, Georgia 30092
Telephone Number: (404) 448-6072

Benefits

Putnam Annual Reports Available

Annual Reports for the George Putnam Fund and the Putnam Investors Fund are available at Personnel offices. The Annual Reports summarize investment experience for the period January 1, 1984 to December 31, 1984 and provide historical information on previous years' investment returns. Questions should be directed to Putnam at 1-800-343-0909.

Employment Verification

Employees are reminded that Data General will only release employment information for credit reference if the request is authorized in writing by the employee.

Information Release forms can be obtained from your Personnel representative or the Compensation assistant assigned to your department. Release forms issued by lending institutions also are accepted. Proper use of the forms will help to speed up the verification process. Additional information can be obtained from your Personnel representative.

Technical Seminars Available To Employees

Educational Services is offering the following technical seminars next month at the Education Center, 2400 Computer Drive. All are available to Data General employees.

For more information or to enroll, call Central Registration and Information in Westboro at extension 4079 or 4096. Supervisor's approval is required prior to registration.

Offerings are as follows:

- DG/SNA Application Design (SM430) -- April 1-3
Seminar Leader: Allen Beth who has been involved in all initial installations of DG/SNA.
- Database Design (SM330) -- April 8-10
Seminar Leader: George Poonen, President of Productive Management, Inc., has published and lectured widely on database systems.
- Communications Hardware Architecture (SM333) -- April 8-10
Seminar leader: Charles Madden, Data General Principal Hardware Support Engineer.
- XODIAC Internal Structures (SM431) -- April 8-12
Seminar Leader: Tom Sullivan, senior support specialist for XODIAC and X.25 in Data General's Communications group.
- AOS/VS System Performance Workshop (SM412) -- April 16-18
Seminar leader: Malcolm Lawson, Manager of Seminar Programs for Data General's Education Services department.
- Local Area Network Design (SM233) -- April 29 - May 1
Seminar leader: Douglas Kaye, an independent consultant, is currently involved with applications in LAN technology.

Activities

Cashes Ledge Fishing Trip

The Data General Activities Committee is sponsoring the annual fishing trip to the Cashes Ledge fishing grounds, which is 80 miles east of Gloucester. It is planned for Thursday, August 8. Cost of the trip is \$68.50 a person. As space is limited, reservations will be accepted on a first-come, first-serve basis. Employees interested may contact Alan Oberle at MS 5-51 or extension 7868 in Southboro.

Runners' Club To Hold Meeting Wednesday

Spring is here and the Data General Runners' Club is off and running! The club is bringing together runners of all abilities to exchange information on training and racing, and organize corporate teams to compete in local races.

Whether you are an official member of the Boston Marathons, a local 10K racer, or a 10-minute per mile jogger, the Runners' Club is seeking your involvement. The club's first meeting will be Wednesday, March 27 at 5 p.m. in the Cafeteria. If you would like advance information about the club, see

the Activities bulletin boards or write Running Club, F036.

Let's Play Softball

If you have not as yet signed up to play softball, there is still time. Individual players who want to sign up are asked to contact League Commissioner Dennis Bishop at extension 6254 in Westboro. Your name will be placed in a players' pool or selectively placed on a team that fits your playing ability.

Ringling Bros. Circus Comes To The Centrum

Everyone loves a circus - especially Ringling Bros. Barnum and Bailey Circus which is coming to the Worcester Centrum next month. The Data General Activities Committee has purchased discount tickets to the Saturday, April 27 performance at 11 a.m. Tickets are \$7.50 each. Send requests to CIRCUS MS D232, include a stamped, self-addressed envelope. Make checks payable to the Data General Activities Committee.

Hold On - More Aquarium Passes Are On The Way

Due to the overwhelming number of requests for passes to the New England Aquarium, there are none available at the present time but the Activities Committee is working diligently to acquire more. Those who have sent in requests and have not received passes, please be patient. Orders will be filled as soon as more passes are available.
