News For The Employees of Data General

February 21, 1986

Westboro High School Receives Additional Equipment

When Westboro High School students return to school in the fall, new Data General computer equipment will be awaiting them.

Data General is donating \$150,000 worth of computer equipment, software and support to the high school in order to enhance the school's computer-aided instruction program.

The new products include an ECLIPSE MV/4000 DC computer system with two megabytes of memory, 120 megabyte disk drive, four DASHER D211 terminals and a letter quality printer.

Data General will replace the existing system, an ECLIPSE S/140. The computer was donated to the school in 1983 for computer instruction.

The company also is donating an extensive array of software to assist students in learning computer languages. The software offerings include the AOS/VS operating system, CEO Comprehensive Electronic Office software, extended Basic, Fortran 77, MP/Pascal and ICOBOL, to name a few.

Don Tocher, division director of Communications and Advanced Systems within the Systems Development Division, serves as Data General's liaison with the Westboro public school system on technical computer support. According to Don, "Data General is helping to improve the school's capability to teach computer science and to acquaint students with computer based tools for everyday business applications. To do this, the company is offering the high school a newer machine that is easier to maintain."

Company Sponsors Elementary School Program

Pupils at the Woodland Elementary School in Milford recently were taken on a high-spirited, learning adventure of dance and music during a performance of the Concert Dance Company of Boston.

This educational and cultural event was sponsored by Data General.

During the 40-minute program, titled "All Feet Can Dance," the children had the opportunity to explore all forms of music and dance from modern to classical, soft shoe to jazz. As part of the program, pupils were invited to join the dance group on stage and experience firsthand the strength and coordination required in the various dances. A question-and-answer session, where children learned what it takes to become a professional dancer, concluded the event.

Pupils at the Woodland Elementary School in Milford learn about the world of dance and music in a Data General-sponsored program by the Concert Dance Company of Boston.

XTS/SNA Backbone Provides Network Link

Data General has announced XTS/SNA Backbone, a communications software package that integrates Data General XODIAC networks with IBM Systems Network Architecture (SNA) networks. Using the package, ECLIPSE MV/Family minicomputers can communicate with each other

through an IBM SNA network, without having to disrupt users' normal operating procedures.

XTS/SNA allows users to take advantage of the company's cost-effective computing solutions while maintaining their current investment in other vendors' hardware and software.

Data General customers can use XTS/SNA Backbone to run CEO Comprehensive Electronic Office software, XODIAC utilities, or other XODIAC applications on the current SNA network completely transparently. Users also can continue to communicate with IBM systems attached to the SNA network using Data General's wide range of IBM-compatible software. They can perform terminal emulation, decision support and office automation tasks. Resources connected to the IBM systems are fully accessible to all users.

XTS/SNA Backbone prices range from \$900 to \$5400 depending on the central processing unit.

CEO-TELETEX Interface Announced

Data General has announced the first TELETEX interface to an integrated office automation system, the CEO Document Exchange VI. It allows CEO Comprehensive Electronic Office users to send messages, documents or charts directly from their CEO workstations to other terminals throughout the world through TELETEX public networks without leaving the integrated office automation environment.

TELETEX message transfer systems send messages at faster speeds than TELEX systems.

CEO Document Exchange VI drastically reduces telephone expenses and improves communication productivity. Because it is fully integrated with CEO, it makes any CEO workstation a potential TELETEX station, providing users with access to the extensive communications networks of the major TELETEX services.

It features message storage/forward capabilities that allow messages to be delivered during lower-cost time periods and provides a directory for efficient addressing to individual CEO users. Unlike conventional TELETEX systems, Data General's CEO Document Exchange VI provides a usage accounting and billing control, and a private use function that allows users to transmit items such as personal files and charts over the TELETEX network in addition to documents.

CEO Document Exchange VI is supported under AOS/VS operating system and requires the Data General/TELETEX Adapter Unit, Model 4554, which includes internal storage to allow documents to be received, even when the host system is unavailable. CEO Document Exchange VI is priced between \$750 and \$4,500. The TELETEX Adapter Unit Model 4554 costs \$5,000.

New Terminals Offer Added Features, Lower Prices

Data General's latest additions to its DASHER Family of workstations offer a range of options for business automation customers. The DASHER D461 is an alphanumeric/graphics display terminal; the DASHER D411 is an alphanumeric display terminal. Both the DASHER D215 and D214 workstations are general purpose, alphanumeric display terminals.

The DASHER Family of workstations welcomes some new members which offer new features and lower prices than previous models.

The new models include:

- The DASHER D461, an alphanumeric/graphics display terminal, targeted for business automation, word processing, and interactive data entry applications. It is priced at \$1495, 25 percent lower than its predecessor, the DASHER D460.
- The DASHER D411, an alphanumeric display terminal, designed for similar applications as the DASHER D461. Its price of \$1195 is 33 percent less than that of its forerunner, the DASHER D410.
- The DASHER D215, an alphanumeric display terminal for interactive data applications, priced at \$895, 25 percent less than its predecessor, the DASHER D211.
- The DASHER D214, another alphanumeric display terminal for interactive data applications, priced 31 percent lower than its sister terminal, the DASHER D210, at \$795.

The workstations incorporate new features including a screen saver and a soft set-up menu. Designed to extend the life of the display by preventing image burn-in, the screen saver feature clears the display after a specified period of inactivity. The soft set-up menu simplifies configuration by allowing variables such as terminal transmission speed, parity, and mode of operation to be set by keyboard response to menu prompts.

All DASHER D400 and D200 series workstations are available 30 days after receipt of order.

Data General Dedicates Chihuahua City Facility

Data General this week held dedication ceremonies at its new 42,000 square-foot product assembly, test and repair facility, marking the establishment of the first such operation in the western hemisphere outside of the United States.

Located in the Complejo Industrial Park, Chihuahua City, the facility opened last autumn and recently it completed the start-up phase of operations. Employment is expected to grow from the present number of 35 to more than 100 people in 12 to 18 months.

Data General will be performing several functions at the facility, enabling the company to serve customers in Mexico and throughout Latin America:

- Assembly and test of ECLIPSE MV/4000 32-bit minicomputers (one of the most sophisticated computer systems produced in Mexico today)
- Electrical cable/harness assembly and test
- Printed circuit board assembly and test
- Product repair center

Purchasing operations will be established at the plant, as well. Following Data General's normal purchasing policies, the company will buy equipment and supplies locally for the facility whenever possible. Data General also plans to make some purchases for export to supply its Manufacturing facilities in the United States.

"We are very pleased to have this opportunity in Mexico, and also with the tremendous support and assistance we have received from officials at all levels of government," says President Ed de Castro. "The Chihuahua facility will be the principle source and servicing center for Data General's industry-leading 32-bit computer system technology to Mexico and other Latin American countries. (The company also established a sales subsidiary last year in Mexico City.)

Joining Ed in the dedication ceremonies were Saul Gonzalez Herrera, governor of Chihuahua; Plant Manager Ramon Real; David Chapman, senior vice president of Manufacturing, and Wayne Fitzsimmons, Data General vice president for Americas/Far East.

During the dedication, Ed announced also that the company had donated to the University of Monterrey the same computer being produced at the Chihuahua facility, an ECLIPSE MV/4000. The company also will donate another system to the Instituto Tecnologica Regional de Chihuahua.

"We have brought to Mexico and Chihuahua City a company with a long record of technological leadership and stability," says Governor Herrera.

Data General will benefit greatly from the resources and market opportunity that our country has to offer. And our citizens and economy will benefit as Data General's new facility becomes the primary source for computer systems of this type throughout Latin America."

Major Acquisition Purchasing Sponsors Buyers' Conference

Data General buyers of capital equipment from across the country recently gathered at Data General-Portsmouth to discuss ways to standardize the company's approach to purchasing the advanced technology used in the manufacture of Data General 16- and 32-bit computers.

Purchasing employees from Data General facilities in Westboro, Milford, Southboro, Portsmouth, Westbrook, Clayton, Apex and Austin had the chance to share common concerns and discuss ways on how to better handle the business.

Corporate Purchasing and buyers in the plants use a "team approach" in working with plant engineers to determine capital equipment and construction needs for the various facilities. It is the responsibility of buyers to request proposals from vendors and to decide which vendor best meets company specifications in the areas of price, delivery date, service, payment terms and warranty. During the two-day conference, the group decided upon standards for evaluating vendors and negotiating vendor contracts according to company requirements.

Says Bob Goodman, Major Acquisition Purchasing manager in Westboro who sponsored the conference, "This meeting allowed all the employees involved in the capital equipment and construction purchasing process a chance to meet each other and update one another on projects ongoing in the plants. More importantly, we decided upon a common approach to working with vendors in the purchase of advanced Manufacturing equipment that will keep Data General on the leading edge of technology."

People

In North American Sales...

Chris Wallis is manager of Systems Engineering National Accounts reporting to Bill Gamble, director of Systems Engineering. She is responsible for defining and implementing a National Accounts function in Systems Engineering to complement the North American Sales Division's (NASD) National Accounts group, headed by Frank Gallo. Christine also provides Systems Engineering focus for similar accounts in the Federal Systems Division.

With Data General for more than nine years, Chris most recently worked in NASD on assignment reporting to Frank Pinto, division director of Field Marketing. She also worked in the Technical Systems Division as manager of Workstation Marketing, in

addition to holding a variety of positions within Systems Engineering.

Prior to joining Data General, Chris worked for 10 years in operating systems programming and systems analysis. She holds a BS in computer science from the University of California at Berkeley.

In Information Systems...

Wayne Salpietro joins the Information Systems Division's (ISD) Industry Marketing group as manager of Health Care Industry Marketing, reporting to Mike Parise, manager of Application Products Marketing. In this position, Wayne develops and implements marketing strategies and programs to increase market share in the health care industry.

Wayne comes to Data General from Wang Laboratories, where he most recently worked as a manager in Health Care Industry Marketing. He also has worked in sales and marketing at BayBanks and Control Data Corporation. Wayne holds a BS in management from Lesley College.

In Manufacturing...

Donald Stewart joins the Marketing and Sales Information Systems (MSIS) Technical Support group as an associate system programmer reporting to Technical Support Manager Debbie Colburn.

In his new position, Don supports the software running in the MSIS Data Center. In addition, he supports Data General CEO Comprehensive Electronic Office system users from the data center. Donald graduated from Boston College with a BA in computer science.

Training

"C" Programming Seminar Scheduled In March

A special three-day class, called *C Language: An Introduction (SM131)*, will be offered by Educational Services on Monday, March 17 through Wednesday, March 19 at the Education Center, 2400 Computer Drive in Westboro. Georges Grinstein, a member of the Computer Science department at the University of Lowell, will teach this course.

Designed for programmers with block structured language experience, this seminar covers the data structures and syntax of the C language, and provides hands-on programming experience with C under the AOS/VS and the MV/UX operating systems. The class also includes information on the specific Data General features of the C compiler.

To enroll, call extension 4079 in Westboro. Supervisor's prior approval is required for enrollment.

Educational Services Employee Training Schedule

The following courses will be conducted by Educational Services at the Education Center, 2400 Computer Drive in Westboro. To enroll in any course listed below, call Central Registration in Westboro at extension 4079. Supervisor's approval is required prior to registration.

CEO Courses

Alarms Will Sound

The fire alarms and sprinkler systems in Buildings 4A and 14B at Data General-Westboro will be rested from 7:30 a.m. to 11:30 a.m. on Sunday, February 23.

New Schedule For Manchester Shuttle

The Manchester shuttle service which carries employees and delivers mail to and from Manchester and Westboro runs several times daily. Employees planning to use the service must have their mail ready or be in Westboro's Lobby B a few minutes before departure time.

The new schedule is as follows:

| Depart | Arrive |
|---------------------|---------------------|
| Westboro - Lobby B | Manchester Facility |
| 7:30 a.m. | 8:45 a.m. |
| 11:30 a.m. | 12:45 p.m. |
| 3:15 p.m. | 4:30 p.m. |
| Manchester Facility | Westboro - Lobby B |
| 9:15 a.m. | 10:30 a.m. |
| 1:30 p.m. | 2:45 p.m. |
| 5:00 p.m. | 6:15 p.m. |

Recycle Your Videocassettes

Employees are encouraged to submit to Media Services their used and unwanted company videocassettes for recycling and further use. For more information, contact Media Services Manager Jim Robert at Mail Stop F019, extension 4023 in Westboro or through CEO host, Robert J:ZETA.

Activities

New This Year - Data General Gift Items

Shop at your convenience for assorted items bearing the Data General logo through a mail order brochure. A descriptive merchandise flyer and order forms are available in the cafeterias or charge by phone by calling (617) 281-3300 in Gloucester, Mass.

Items also may be purchased on site at CVS in Westboro and soon will be offered at the Milford and Southboro main cafeterias.

Items available are:

V-neck sweater - White, with embroidered two-color logo.

Golf shirt - Available in white, navy and red with embroidered Data General logo.

Baseball cap - Available in red and black; two-color logo screen printed on front.

Gym shorts - White with red binding on legs and side; company logo screen printed on leg; also available in youth sizes.

Windbreaker - Unlined pull-over style with hood; folds into front pouch; also available in white or red.

T-shirt - White with red trim; 50/50-cotton blend full front logo; also available in youth sizes.

Glass tankards - 13-ounce glass tankard with two-color logo on both sides.

Custom playing cards - Double deck with red and white logo.

Luggage tag - Leather with stamped logo; choose brown burgundy or black leather.

Roll duffel bag - 18"x 10"; choose black, red or navy; nylon.

Atlantic City Weekend

Experience the sights and sounds of Atlantic City, New Jersey with your friends and family. Buses will depart for Atlantic City at 5 p.m. from Data General-Westboro on Friday, April 11. Tour includes two nights' accommodations at Harrah's Marina Hotel and Casino, round-trip transportation via motorcoach, baggage handling and taxes, and a bonus of casino quarters. Return to Westboro at approximately 9 p.m. on Sunday, April 13.

Cost for the trip is \$149 per person based on double occupancy. Price includes all taxes and service charges. To reserve space on the trip, send a check for the full payment made payable to Data General Activities Committee to: ATLANTIC CITY, Mail Stop C-128 in Westboro. Be sure to include a self-addressed, stamped envelope.

"The City" Discount Coupon Books

The ever-popular Boston "City" discount coupon books once again are available to Data General employees. If you would like to receive a copy of the spring edition, send a self-addressed, inter-office envelope (include a \$.73 postage stamp and a large envelope if you wish it sent to your home) to: THE CITY, Mail Stop C128 in Westboro. You will receive your book within two weeks.

A Touch Of Spring

The Annual Spring Flower Show will be at the Bayside Exposition Center in Boston on Saturday, March 8 through Sunday, March 16. For employees, advance-sale tickets of \$5 per adult are available from the Data General Activities Committee. (Regular

price is \$6.) Children, ages six to 12, are admitted for \$1 and those tickets must be purchased at the door.

Send your requests to FLOWER SHOW, Mail Stop C128. **Checks must be made payable to the Data General Activities Committee.** Be sure to include a stamped, self-addressed envelope.

Your Ticket To The Wonderful World Of Disney

Planning a spring trip to Florida or California this year? Be sure to get a free Magic Kingdom Club card before you depart. Club members and their families are entitled to discounts at Disney World in Florida and Disney Land in California. Send a self-addressed inter-office envelope to: DISNEY, Mail Stop C111 in Westboro.

Brush Up On Your Golf Game...

Are you interested in improving your golf game or learning the correct way to play?

The Data General Golf League has arranged for a Professional Golfers' Association (PGA) professional, with 13 years of teaching experience, to assist employees with their game of golf. Beginning in early April, the lessons would consist of six one-hour sessions conducted at the Wayland Country Club in Wayland. The total cost for six lessons would be approximately \$30. Lessons will be arranged only if enough employees express interest.

If you are interested, fill in the form below and mail to Fred Mueller at Mail Stop A125 in Westboro or send a message through CEO host system, MUELLER F:HARVEY.

| Golf Lessons | |
|---|------------------------|
| Name: | _____ |
| Mail Stop: | _____ Extension: _____ |
| CEO Address: | _____ |
| <p>() Yes, I am interested in taking golf lessons, if offered through the Data General Golf League. I understand that they would be conducted at the Wayland Country Club in Wayland and that the total cost for six one-hour lessons is approximately \$30.</p> | |

Data General Puts Community Involvement A Generation Ahead

Charitable

Organizations . . .

Over the past 18 months, Data General has donated more than \$40,000 to United Way programs throughout central Massachusetts. And on behalf of employees world-wide, Data General made a major contribution to aid victims of starvation in Africa.

Education . . .

To ensure our children's readiness for the future, Data General regularly conducts 'Train-the-Trainer' workshops for teachers and school superintendents throughout central Massachusetts. This popular program helps educators discover the potential of computers in the classrooms.

In addition, we've provided local colleges such as Central New England College and Worcester Polytechnic Institute with the latest computer equipment to support instruction and research projects. The Franklin, Uxbridge and Milford school systems have been recent recipients of our active computer donations program.

Health Care . . .

At Framingham Union Hospital and the Children's Medical Center in Boston, computers donated by Data General are helping to reduce patient health care costs.

The Arts . . .

Data General has been an active supporter of the arts. In the past year, the company has provided thousands of dollars to the Computer Museum, the Children's Museum, the Danforth Museum, the New England Aquarium, Framingham Community Concerts Association and numerous other cultural programs serving Massachusetts residents.

 Data General
a Generation ahead.
