News For The Employees of Data General

June 20, 1986

Development Employees Ready For The Future

The recent Central Processor Development (CPD) conference in Woodstock gave Data General's hardware developers an opportunity to "rally together" for the year ahead. It was a time for them to look back at their recent achievements in product design, discuss the latest in technological trends, and focus on Data General's next generation of computer systems.

During the conference, speakers from various sales, marketing, development and service organizations outlined Data General's position in the computer industry and its direction.

Among the presenters were Business Group Senior Vice President Bob Miller and Business Group Marketing Vice President Dave Lyons.

In his remarks, Bob first applauded the "stellar group of engineers" for their talent in developing products that make Data General a forerunner in the computer industry. Looking ahead to the future, he discussed marketing strategies and what Data General is doing to remain a top supplier of information processing solutions.

Bob then went on to convey comments made by consultants who gave Data General "high marks" as an industry leader. He cited a recent report by the Gartner Group, a computer industry consulting firm, which stated that, "Data General continues to demonstrate significant talent in technology with the new ECLIPSE MV/2000 DC and ECLIPSE MV/20000 products, as well as in software, with the distributed AOS/DVS version of its operating systems."

Dave then provided customer reaction to Data General's products announced last November. He said, "Market acceptance of our new ECLIPSE MV/Family of computers has been excellent. E.F. Hutton's first vice president of communications and programming says this about its ECLIPSE MV/20000 system, 'We are running our normal applications on it and it hums. We have not yet quantified it through performance parameters, but it is amazing how fast it goes.'"

Added Dave, "Beneficial thought installation of its ECLIPSE MV/2000 DC 'looked too easy.' Says its office automation vice president, 'I suspect this type of system is the machine of the future.'"

Dave closed his portion of the program giving much of the credit for positive customer reaction to the new computers to the developers. He said, "Frankly, you are the most important resource we have in our efforts to stay ahead. We are counting on you to design and develop our next generation of systems," Dave said.

Other guest speakers included Professor Michael Dertouzos of MIT and Data General's Scientific Advisory Board who examined technological futures, and Dr. Neal Thornberry, senior partner and co-founder of Organization Dimensions, who presented and moderated a well-received session devoted to project teamwork.

In addition to the presentations, conference attendees participated in technical seminars, which covered a wide range of topics from optical disk technology, to semi-custom component technology to design tools. This provided developers with information to help perform their responsibilities.

Following the conference, developers were more than pleased with their three days at Woodstock. Says Randy Johnson, a principal engineer in the Systems Sustaining area, "The conference was very enlightening. CPD engineers got together not only as a group with a common purpose, but also as individuals. It was an opportunity to meet those people working on other projects and discuss with them how their design efforts paralleled your own."

Summing it all up, Don Wade, Integrated Systems manager, remarks, "The conference was a time to meet together as a department and get charged up and ready for the next round of new products."

Director's Awards Presented At CPD Conference

Central Processor Development (CPD) Director's Awards for outstanding contributions to a product

development project were presented at the recent CPD conference at Woodstock to Bob Gelinas, Tom Myer and James Mumford.

In presenting the awards, CPD Director Bill Avery said, "Congratulations go to these employees who extended a concerted effort to get the job done right and on time. Their dedication and exemplary contributions to key projects within CPD are representative of the group as a whole."

Bob received the honor for developing software simulation tools, while at the same time performing his hardware design responsibilities on new products. Taking the initiative, he created two software simulation tools, and specified and started the implementation of a new simulation engine. This was integrated into Data General's simulation environment. The overall result was a more powerful simulation capability running on ECLIPSE MV/Family computers. This will be used in the development of new products.

Tom was responsible for the development of the microcode for the ECLIPSE MV/2000 DC and the DS/7000-series of engineering workstations. He won the award for effectively coordinating and resolving issues involving the microcode releases for CPD, Software Development, Manufacturing and field installations during the successful introduction of these products.

Jim received the Director's Award for his work on the ECLIPSE MV/20000 computer project, despite a tight deadline. He delivered approximately 25 percent of the ECLIPSE MV/20000 system diagnostic microcode, a critical portion of the system's development which was used by most of the other developers.

Receiving Director's Awards for outstanding contributions to key projects within Central Processor Development are: (left to right) Bob Gelinas, Tom Myer and James Mumford.

Memory Capacity Doubled

Data General has doubled the maximum memory capacity of the ECLIPSE MV/2000 DC computer and the DS/7500 engineering workstation. Customers now will have available to them four- and eight-megabyte expansion memory modules for both systems, increasing the systems' maximum memory by 100 percent.

"The new four- and eight-megabyte expansion memory modules will give Data General customers even greater flexibility in configuring packaged office and engineering workstations," says Dave Lyons, vice president for Business Group Marketing. "The new memory upgrade packages will offer twice the memory at a very reasonable price."

The ECLIPSE MV/2000 DC computer and the DS/7500 engineering workstation were introduced last November. Both systems incorporate a single 15-inch printed circuit board that includes two megabytes of parity-memory based on 256-KB DRAM chips. The new four-megabyte module, Model 8924-D, and the new eight-megabyte module, Model 8924-E, add to the series of half-height memory modules (one-, two- and three-megabyte capacity) currently available. The two new modules are also based on 256-KB memory chips.

The new 10-megabyte memory maximum on the ECLIPSE MV/2000 DC and DS/7500 systems is achieved by adding the new eight-megabyte memory module to the two megabytes of standard memory. Both systems still may support only one expansion memory module.

The four-megabyte module Model 8924-D is priced at \$8,600. The eight-megabyte module Model 8924-E is priced at \$17,200. Both are available 60 days upon receipt of order.

Disk Drive Capacity Expanded

Data General has introduced a 160-megabyte, 5 1/4 inch Winchester disk drive that increases the maximum disk storage capacity of the company's packaged office systems and engineering workstation products by 33 percent.

The Model 6363 160-megabyte disk drive expands the memory options on Data General's ECLIPSE MV/2000 DC and ECLIPSE MV/4000 DC computers, and the DS/7500 engineering workstation. These systems support up to two disks and currently are available with a choice of 38-, 70- or 120-megabyte disk units.

"The new 160-megabyte memory package strengthens Data General's commitment to packaged office and engineering products," comments Bob Johnson, director of Marketing Support for the Information Systems Division. "By increasing disk capacity, we can now offer customers with growing

data storage requirements more flexibility and choice at a significantly better price/performance--about \$59/MB--than other 5 1/4-inch disk drives."

The Model 6363 160-megabyte Winchester disk drive is priced at \$9,500 and is available immediately.

Employees Participate In Community Discussion

Data General and the community - that was the topic about 25 Data General employees who live in the town of Westboro discussed last week during a meeting hosted by the Public Affairs department.

Public Affairs Director Brad Stroup opened the one-hour session by telling attendees that the "first-time meeting" came about in response to an employee suggestion to bring employees "up-to-date" on Data General's community involvement with the town. As a result, all employees working in Buildings 14A and 14B who reside in Westboro were invited to attend the discussion. "We are looking for your advice," said Brad. "Employees may be able to help the company and the town strengthen their relationship."

Government and Community Affairs Manager John Moriarty stated that "Our work with the town has increased over the past couple of years. We are

helping Westboro address issues that have arisen due to its rapid growth. For example, we now have employees serving on its Chamber of Commerce and Traffic Committee. This type of participation helps the company to become a good neighbor within the community."

Donations Administrator Dave Dimmick reviewed the company's cash and equipment donation programs with the town. Over the past three years, Data General has donated \$1.5 million in computer equipment to various civic and educational groups in Westboro. That includes donations this year of an ECLIPSE MV/4000 DC, an ECLIPSE MV/2000 DC and several DATA GENERAL/One personal portable computers to the high school. And in 1986, Dave added, the company already has donated about \$26,000 in cash to various civic, educational and non-profit organizations in Westboro. This includes the donations to 10 town groups and the high school made when the company marked its 10th anniversary in Westboro last December.

Communications and Advanced Systems Director Don Tocher reviewed the company's computer project with Westboro High School. The experimental project may help teachers and students integrate Data General 32- and 16-bit computers into their daily school activities. As a Westboro resident, Don has taken special interest in helping the school take full advantage of the computers.

A general discussion gave employees an opportunity to raise issues ranging from traffic congestion on Computer Drive to future plans for Rt. 9.

According to Brad, the meeting showed that a number of employees are interested in the company's involvement with the town and want to learn more about how they can participate. As a result, employees will be notified of future meetings so they can continue to be kept abreast of events surrounding the company and the town.

Channel 2 Receives Company Support

An interesting item came up for bid last week on the annual Channel 2 auction. No, it was not a famous painting donated by an anonymous collector of rare art works. Nor was it a 35-foot yacht.

Rather, the auction item was a DATA GENERAL/One Model 1 portable personal computer system. The unit, complete with 512 KB-memory, sold for a high bid of nearly \$3000.

The Data General equipment was introduced on the public television station by a minute-long video tape with a voice-over detailing the specifics of the portable machine. Featured in the "commercial" were Educational Services Director Rich Jaross and Donations Administrator Dave Dimmick of Public Affairs. Rich displayed the various components of the machine such as the two internal 3-and-1/2-inch disk drives and portable printer - showing its ease of use. Dave packed up the light weight laptop, carrying it out of the office and onto the Data General helicopter to demonstrate its portability. The 60-second spot gave Channel 2 viewers a good look at the compact, personal computer system "for business people on the go."

The DATA GENERAL/One Model 1 portable personal computer system was donated by Data General to support the public broadcasting channel. WGBH-Channel 2 offers viewers educational programs such as Frontline, Nova, Masterpiece Theater, Evening At The Pops and Julia Child's Kitchen. These programs can be seen by a weekly audience of two million viewers, on average. Support of the non-profit organization helps keep quality programming on the air, which employees can enjoy.

Sole Sponsor Of Frontline Series

In addition to supporting the Channel 2 Auction, Data General also is the sole sponsor for the local broadcast of Frontline, a highly-acclaimed news show. Frontline is Channel 2's weekly public affairs documentary series.

Like 60 Minutes or Nightline, Frontline takes an in-depth look at current issues in the news. An interesting Frontline program that already aired is

one that took viewers inside a a real-life "closed-door" jury session and a following show covered the controversial "Star Wars" strategic defense initiative.

A Channel 2 official, Susan Lewis, expresses her appreciation of Data General's support of Frontline in this way: "By helping to fund Frontline, Data General has made a significant contribution to a successful year for WGBH. Outstanding programming on Channel 2 and WGBH Radio-FM is literally made possible by underwriting grants from the corporate community. We sincerely appreciate your participating as a corporate sponsor.

"The additional donation of computer equipment helps to ensure the continued success of the Channel 2 Auction and bolsters the entire WGBH Educational Foundation," she adds.

Data General has supported Channel 2 through computer equipment donations and cash contributions for the past five years.

People

In Manufacturing...

Dave Landry has been promoted to senior section manager within Corporate Order Distribution, reporting to Manager Dave Whitworth. In this position, Dave manages the Corporate Configuration Control group along with Corporate Scheduling.

Dave began his Data General career 12 years ago, working in various production control functions at Southboro. He currently is pursuing his bachelor's degree at Nichols College.

Artificial Intelligence - An Emerging Technology

Any computer aficionado will tell you that the market for artificial intelligence (AI) products is expected to do one thing over the next several years - grow. It has been estimated that the market for AI-related products is expected to balloon from a \$700-million industry today to about \$4 billion in 1990.

To gain a share of the AI market, Data General created an AI Business Unit in November 1985. Led by Director Peter Jessel, the business unit provides the full spectrum of product planning and marketing functions to support the development of a complete set of AI products and services. Many of these products are being developed in Research Triangle Park, under the direction of Bill Lahti.

AI is a set of rules by which computers attempt to replicate human thinking. As Peter explains, "A branch of AI, known as 'expert' systems, captures human knowledge as a set of 'rules.' These rules then are used by expert systems to analyze situations and reach decisions. Expert systems act as 'assistants' to employees within a particular industry, allowing them to become more productive.

"For example, expert systems already have been developed to diagnose computers, bake Oreo cookies and analyze loan applications." adds Peter.

Because of the potential sales within this market, Peter sees AI as a technology which must be integrated into the mainstream of a company's operations. He comments, "Data General is ideally positioned to provide this integrated environment as a natural extension to our business and industrial automation strategy."

Reporting to Peter within the recently-formed AI Business Unit are managers Bill Frank and Chuck Piper.

With Data General for more than six years, Bill now is manager of AI Account Development. Previously, Bill worked in the North American Sales Division in different capacities including national account manager for E.F.Hutton and Branch Sales manager.

Bill has a total of 13 years experience in the computer business, and he has been president of a software consulting firm. He holds a BA in economics from the City College of New York.

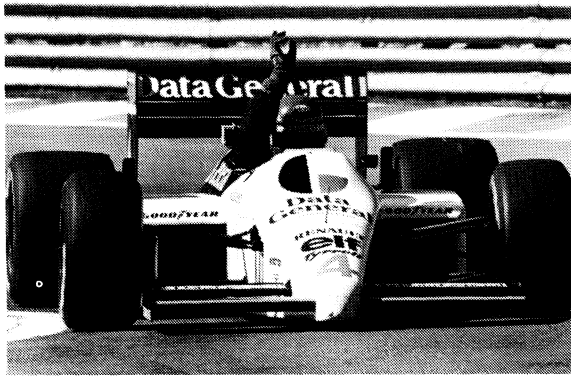

Chuck is manager of Product Marketing for the AI group. With Data General for nearly five years, Chuck has held various marketing positions, most recently within the Technical Systems Division. While there, he was responsible for Common LISP and Emacs Editor software products.

Prior to Data General, Chuck worked in sales at Burroughs for four years. He holds a BA from Michigan State University and an MA from Boston College.

Artificial Intelligence Business Unit members include: (left to right) Chuck Piper, Peter Jessel and Bill Frank.

Data General Team Tyrrell Takes Detroit - Sunday

Data General Team Tyrrell driver Martin Brundle acknowledges the crowd's cheers before the start of last weekend's Montreal Grand Prix race. Martin and team member Philippe Streiff finished ninth and eleventh respectively at Montreal. The Data General Team Tyrrell racers were among only 12 classified finishers in the Formula One Event. The next race is Sunday at the Detroit Grand Prix. It will be televised on CBS from 1 p.m. to 3:30 p.m.

Westboro

June Safety Slogan

Get the knack and save your back.

Handle your back with care by lifting sensibly. Take the time to size up the load and do not take on more than you can carry safely. Lift with your legs, not your back. And, push heavy loads - it is safer than pulling.

Know your limitations and get help when the load is too heavy. Think before you lift or you might get "carried away."

Contest Winners

The above safety slogan is among entries received in the recent safety slogan contest conducted at Westboro. Winners of the contest were Judy Royal, first place, and Brian Bielecki, second place. They received a small fire extinguisher for their cars. Contestants receiving automobile first-aid kits for their efforts are: John Ritchie, Mike Baio, Ralphazza and Judy Royal.

Fire Alarms Will Sound

This Sunday, the fire alarms and sprinkler systems will be tested in Buildings 14A and 14B at Data General-Westboro from 7:30 a.m. to 11:30 a.m.

Selected Power Outage In Building 14B

Air-conditioning systems and selected electrical-power units in Building 14B at Data General-Westboro will be shutdown during the Fourth of July weekend. During this time, major installations will take place which will increase air conditioning and electrical power capacities.

Departments in that area are requested to shut off all computer and other electrical-power equipment no later than midnight on Thursday, July 3. This equipment may then be turned on Sunday, July 6 at 9 p.m.

This temporary power outage will affect Building 14B only. However, the lighting system in Building 14B will remain on. Building 14A will not be affected.

Documentation Design Has Moved

Educational Services' Documentation Design group recently moved to its new home at 2400 Computer Drive in Westboro.

Documentation Design offers a full range of graphic design, business writing and editing, technical illustration, presentation graphics, and publications support services. For more information or to request a brochure describing the services provided by Documentation Design, call 221-1656 or 221-1655.

Training

Computer Concepts Among Courses Scheduled

During the week of June 30, Educational Services will offer the following one-, two- and three-day classes at the Education Center, 2400 Computer Drive in Westboro.

Computer Concepts (S100) is a three-day class that is offered Monday, June 30 through Wednesday, July 2.

CLI Macros (S161) is a two-day course offered Monday, June 30 through Tuesday, July 1.

PRESENT for Programmers (S142) is a two-day class offered Monday, June 30 through Tuesday, July 1.

Getting Started with PRESENT (OA145) is a one-day class offered on Monday, June 30.

Getting Started with the CEO Spreadsheet (OA146) is offered on Tuesday, July 1.

CEO Drawing Board & Wordview (OA151) is a one-and-a-half day class offered Wednesday, July 2 through Thursday, July 3.

To enroll in any of these classes, call Central Registration at 221-1646. Prior approval of your supervisor is required for enrollment.

Activities

Discount Tickets To Great Woods

Discount tickets are available for the following popular artists who this summer will be playing at the Great Woods Performing Arts Theater in Mansfield. All ticket prices reflect a 10-percent discount for Data General employees.

To order tickets, complete the form below. Attach a check made payable to the Data General Activities Committee along with a stamped, home-addressed envelope. Send requests to: CONCERTS, Mail Stop C128 in Westboro.

Great Woods Concerts

Peter, Paul and Mary

Saturday, 7/26 ___ tickets at \$16.75 = \$_____

The Beach Boys

Wednesday, 8/6 ___ tickets at \$16.00 = \$_____

George Benson

Saturday, 8/30 ___ tickets at \$17.75 = \$_____

Note: All performances begin at 7:30 p.m.

Enjoy The City At Discount Prices

"The City" book, offering discount coupons for selected dining and entertainment spots in Boston, now is available in its latest edition to Data General employees.

If you would like to receive a copy of the spring edition, send a stamped, self-addressed envelope to: THE CITY, Mail Stop C128 in Westboro. You will receive your book within one-to-two weeks.

Sign Up For Tomorrow's Track Meet

The Data General Runners Club (DGRC) is organizing a team to compete in the New England Corporate Track Association's Corporate Cup Relay Championship. The meet will take place at 10 a.m. tomorrow at the Northeastern Track in Dedham.

The meet has 17 events, ranging from 220-yards runs to 10-kilometers, the shot-put to the long jump. It is open to men and women of all ages and all levels of experience.

To sign up for the meet, contact Greg Yannekis extension 4398 in Westboro.

Teams Form For Industrial Basketball League

Two Data General teams are being formed to play in the Industrial Basketball League. This is a new league made up of teams from other computer companies competing against each other.

Any Data General employee wanting to play in the Industrial League are asked to contact Keith Millea at extension 6171, Mail Stop C134 in Westboro. Deadline for sign up is no later than June 27.

Aerobics Continues At Westboro

The Data General Fitness Club continues its on-site exercise program with a sign-up for the sixth aerobics session. New members may sign up on the first day before the start of either of the following classes.

Dancin' Aerobics and Free Style Aerobics are offered twice weekly in the main cafeteria at 5:30 p.m. for an eight-week period. Dancin' Aerobics classes will take place every Monday and Wednesday starting on Monday, July 7. The Free Style Aerobics session will be held every Tuesday and Thursday, beginning on Tuesday, July 8. All classes are taught by qualified exercise instructors from the Greater Worcester YMCA.

The cost is \$20 per person for the eight-week program. Repeat attendees need only fill out the form below and mail it to Carol Brestovan at Mail Stop B135 in Westboro along with a check. All payments must be made in check, made payable to the Data General Fitness Club.

Data General Fitness Club

(...for repeat attendees only.)

Name: _____

Badge#: _____ Extension _____

Dancin' Aerobics
(M/W at 5:30 p.m.) - \$20 _____

Free Style Aerobics
(T/TH at 5:30 p.m.) - \$20 _____

Total Enclosed _____

Mail check made payable to the Data General Fitness Club to Carol Brestovan at Mail Stop B135 in Westboro.

MARKETPLACE

CARPOOL

Carpool, existing carpool needs members from Hartford, CT/Sturbridge to Webo, Audrea x4055.

Carpool, Existing carpool needs rider, Brookline/Brighton/Allston/Newton to Webo/Sobo, flex, Katz x7093.

FREE

Kitten, blk, 9 mo, neutered, 485-4007 (Marlboro).

Zenith Color TV, 23", approx 15 yrs old, ran well, needs minor components replaced, 365-4783 (Clinton).

FOR RENT

Condominium, 2 bdrm, garage, tennis, 20 min to Webo, avail immed, \$800/mo, 429-7085 (Hopedale).

Studio Apartment, Harwichport Resort Club, slps 4, furnished, pool, walk to beach/golf course, avail 6/28-7/5, \$400, 839-4258 (Grafton).

House, E. Falmouth, 3 bdrm, near beaches/stores, July \$575/wk, Sept \$300/wk, 429-8024 (Holliston).

Apartment, 2 bdrm, newly renovated, \$600/mo incl heat/hot water, 883-4772 (Blackstone).

Rooms, S. Yarmouth, walk to beach, 398-9503 (Dennis).

Apartment, 1 bdrm, pool/tennis, balcony, near Rt 9, 842-2510 (Shrewsbury).

Condominium, 2 bdrm, AC, walk to train, \$575/mo, 655-3679 (Natick).

Apartment, 2 bdrm, appl, near Rt 20 & 15, \$600/mo + util, 485-1915 (Marlboro).

Condominium, 1 bdrm, AC, security, garage, avail July, \$550/mo incl hot water, 877-7182 (Framingham).

Cottage, Dennisport, near beach, 2 bdrm, appl, \$425/wk, 473-2241 (Mendon).

Apartment, Marlboro, 2 bdrm, 3 month sublet avail June 19, \$600/mo, 440-6487 (Wayland).

Condominium, 2 bdrm, 2 baths, garage, tennis, 20 min to Webo, avail immed, \$800/mo, 429-7085 (Hopedale).

Efficiency Unit, West Dennis, sliding doors onto deck, near beach, adults preferred, \$280/wk, 485-6970 (Marlboro).

Storage, clean, dry, secure, for furniture/auto/etc, 234-3103 (Northbridge).

Storage, clean, dry, secure, for furniture/auto/etc, \$35/mo, 234-9647 (Whitinsville).

WANTED

Roommate, 3 rd person to share 3 bdrm duplex, have dog/no more pets, \$217/mo + 1/3 util, 653-5541/875-8366 (Natick/Framingham).

Roommate, female to share 3 bdrm house, no pets, references, avail July 1, \$275/mo + 1/2 util, near Rt 9, 756-4849 (Shrewsbury).

Roommate, to share 5 rm apartment, non-smoker, 15 mini to Webo, 478-8642 (Milford).

Roommate, to share 3 bdrm house, 15 min to Webo, \$275/mo + 1/3 util, 568-0370 (Hudson).

Roommate, to share 6 rm apartment, \$325/mo incl util, 478-7160 (Milford).

Roommate, to share 3 bdrm duplex, non-smoker, 8 mi to Webo, avail 6/1, 481-1540 (Marlboro).

Roommate(s), non-smoker(s) preferred, to share large 5 rm apt, 15 min to Webo, avail immed, 478-8642 (Milford).

Condominium, 3 bdrm, frpl, garage, wooded setting, convenient to Webo July occup, 869-6566 (Boylston).

FOR SALE

Travel Trailer, 23 ft, Prowler, many extras, \$5800, 429-1063 (Holliston).

House, split level, 4 bdrm, 3/4 acre, 2 yrs, \$154,500, 529-3434 (Upton).

Scandia 926, wood/coal stove, used 2 seasons, \$50, 478-6031 (Hopedale).

House, Raised ranch, 3-4 bdrms, 2 1/2 baths, new kitch, fmly rm, garage, 10 min to Webo, \$164,900, 485-5717 (Marlboro).

House, 3 bdrm ranch, new kitch, new bath w/5' custom vanity, triple pane windows, forced hot air, \$137,900, 393-3048 (Northboro).

House, 8 rm split entry ranch, vinyl siding, new leach system, fenced back yard, 2 car garage, screened porch, \$209,900, 263-7542 (Acton).

Waterbed Frame, new, softsided, 6 drawers, \$750, 987-0414 (Oxford).

Condominium, Ledge mere town house, 2 bdrm, 1 1/2 baths, garage w/opener, treed lot, mid-\$130s, 881-5981 (Ashland).

Town House, 2 bdrms, 1 1/2 baths, eat-in kitch w/deck to quiet backyard, full basement, lots of storage, access to pool and tennis, \$89,900, 755-4627 (Worcester).

Bike, girl's Raleigh space rider, 16" frame, 3 spd, coaster brake plus front hand brake, red, 1 owner, \$85/BO, 256-0143 (Chelmsford).

Firewood, Oak, cut 18 in, you pick up, \$45/cord, 792-1454 (Millbury).

Washer & Dryer, Maytag washer, Whirlpool dryer, apt size, 2 yrs old, \$100/both, 478-4318 (Milford).

Sailboat, 7.5 meter, Tanzer 25', slps 4, selftend jib, 3 sails, OB, fin keel, fully equipped, \$12,900/BO, 366-8017 (Westboro).

Items, GE microwave oven, \$150; Louvre drape vertical blinds for 6 ft. patio door, 366-1653 (Westboro).

Gas Dryer, Frigidaire, white, \$150/BO, 872-0201 (Framingham).

House, 3-4 bdrm, 3 yr old ranch, 2 baths, 2 car garage, 20' x 40' fam rm, professionally landscaped, \$160's, 562-7102 (Hudson).

Town House, Laurelwood, 2 bdrm, 1 1/2 baths, AC, full basement, deck, \$141,900, 473-0808 (Hopedale).

Items, Sunfish sailboat, w/window sail, \$800/BO; approx 400 sq ft used oak flooring, \$500/BO; 655-1117 (Sherborn).

Cabbage Patch Kid, girl, 485-4007 (Marlboro).

Items, table saw, 10 in metre gage, rip fence, \$200/BO; microwave, \$200/BO; 234-9695 (Northbridge).

Screen House, 12' x 12', \$150, 851-2522 (Tewksbury).

Hot Water Heater, 42 gal, elec, new, glass lined, \$75, 464-2046 (Princeton).

Air Conditioner, Sears, 7800 BTU, 3 yrs old, energy efficient, \$200, 877-0119 (Framingham).

Thunderbird Boat, 19 1/2 ft, tri-hull, fiberglass, new battery/apholstery, 115 hp Johnson outboard motor, \$3900, 567-2590 (Boston).

Barbecue Grill, charcoal, w/top, used once, \$20/BO, 562-2731 (Hudson).

Condominium, 2 bdrm, 278-5066 (Uxbridge).

Fish Tank, 50 gal, rectangle w/gravel/filter/thermometer and sliding glass top, 842-5478 (Shrewsbury).

Tent Trailer, slps 4, soft top, new tires, light-weight, \$450/BO, 234-9358 (Northbridge).

Tickets, Great Woods, 2 for Jeffrey Osborne, 6/20, \$42; 2 for Inxs, 7/24, \$42, 234-9808 (Whitinsville).

Items, dining room table, glass top, oak & wicker base, 4 chairs, \$500/BO, 738-7033 (Brookline).

Tires, 185/SR13, 6 steel belted radials, \$12 ea/\$70 all, 655-3039/655-0222 (Natick).

Items, RCA, VKT-430 VCR, wireless remote, w/4 head recording, \$400/BO; Nikko NA-890 stereo amplifier, \$300/BO; Nikko NT-890 stereo tuner, acces incl, \$200/BO; Atari 1027 letter qual printer, \$175/BO; 135mm telephoto lens w/hard case (Cannon mt), \$100/BO; Sharp VX-1199 electronic printing calculator w/dust cover, \$60/BO; car speakers, 1 pr Jensen Triax II flush mount, 20 oz magnet, grill - 6 1/2 x 6 1/2, \$75/BO; new Homelite automatic gas chainsaw, \$325/BO; 897-4836 (Maynard).

AUTOS
