News For The Employees of Data General

June 27, 1986

Three-Day Weekend Ahead

Employees are reminded that Friday, July 4, is a paid Data General holiday.

Worldwide Field Engineering Vice President Appointed

Dick Camuso

Dick Camuso has been named senior vice president for the Worldwide Field Engineering division, reporting to Herb Richman, executive vice president. Dick succeeds Frank Silkman, who became senior vice president of Manufacturing last March.

Dick is responsible for the overall management, direction and administration of Data General's Field Engineering operations worldwide, including product repair centers, customer support programs and marketing services, and logistical support.

Herb says, "Our Field Engineering operations today are one of the strongest and most responsive customer service organizations in the computer industry. Dick brings extensive management experience to Data General that will help us reach even higher levels of customer support."

Dick joins Data General after 22 years at IBM, where he held numerous executive and management positions in different areas of the computer business.

He was vice president of finance and planning for IBM's Customer Service Division, responsible for small systems, office systems and office products; vice president of finance and planning for the National Distribution Division, responsible for the marketing of low-end products including personal computers, typewriters and System 36 computers to remarketers; controller for the Office Products Division; and controller of the Data Processing Division, responsible for the marketing of medium/large computer systems.

A native of Lawrence, Mass., Dick received his master of business degree in finance from Columbia University in 1964, and a BA in economics from Georgetown University in 1962.

Reporting to Dick are Bill Bentley, vice president of North American Field Engineering, Fred Cochrane, vice president of Engineering Services, and Tony Nicoletti, vice president of Field Engineering Support.

Data General Incorporates Semiconductor Technology

Data General has signed an agreement to purchase a minority interest in Actel Corporation, a newly-formed semiconductor firm based in Sunnyvale. As part of the agreement, Data General will be represented on Actel's board of directors.

Data General and Actel also will enter into a three-year engineering development agreement that will allow Data General to incorporate the resulting semiconductor technology into its products.

"This relationship with Actel is the first in what will be a series of moves that will make our Sunnyvale Division one of the industry's foremost developers of innovative silicon systems," says Colin Crook, senior vice president of Data General.

"Our strategy is to utilize the most advanced electronic components in the design and manufacture of systems that meet the long-term needs of our customers," says Vahe Sarkissian, vice president

of the Sunnyvale Division. "This agreement is an important step in that direction."

Under the terms of the joint engineering development agreement, Actel and Data General will design and develop semiconductor products based on Actel's new technology.

Data General support will include personnel and the use of test equipment, wafer fabrication and engineering facilities at its Sunnyvale Division as well as other unspecified resources.

Data General Users Group To Convene In Orlando

Data General computer users from across North America soon will gather at the 13th annual North American Data General Users Group (NADGUG) conference to share information on their various types of computer systems and software applications.

The meeting, to be held Tuesday, August 12 through Thursday, August 14 in Orlando, will provide three days of informative sessions and round tables led by customers, independent software and hardware vendors, original equipment manufacturers (OEM) and Data General employees.

A special guest speaker will be Dr. Daniel Burris, a noted futurist, who will offer his comments on future directions within the computer industry. Dave Lyons, vice president of Business Group Marketing, also will serve as a guest speaker.

For those able to arrive on Monday, Educational Services will offer a selection of technical seminars. The seminars will cover topics ranging from computer-aided design/computer-aided manufacturing (CAD/CAM) applications on Data General engineering workstations to the company's personal computer networking architecture to an overview of AOS/DVS, Data General's new distributed operating system. The courses require advance registration. For a complete schedule or to enroll, contact Educational Services' Central Registration at 221-1646 in Westboro.

Also offered on Monday will be a special CEO comprehensive electronic office software workshop. It will include a discussion on installing CEO software within an organization.

NADGUG is made up of all types of users and OEMs - from large corporations using advanced electronic networks of Data General computers to small businesses using DESKTOP GENERATION systems; and from Management Information Systems (MIS) managers to CAD/CAM engineers.

Employees may attend the conference upon supervisory approval. For registration information, contact the NADGUG office at extension 4721 in Westboro.

Bringing Good Things To GE

To mark the 3000th computer purchase by the General Electric (GE) Medical Systems Group, President Ed de Castro (right) presents a plaque to Dr. Walter Robb, senior vice president of GE's Medical Systems Group. Data General has been working with GE since it first purchased a computer for integration into medical systems in 1975. Also present at the award ceremony were Don McDougall, vice president and general manager of the Technical Systems Division and Frank Gallo, director of National Accounts for the North American Sales Division.

Systems Division Helps E.F. Hutton Communicate

Data General's Systems Division played an integral role in helping E.F. Hutton expand its extensive and sophisticated CEO comprehensive electronic office network, which electronically links E.F. Hutton's employees throughout the world.

E.F. Hutton is one of the largest financial services companies in the world. It currently has about 250 ECLIPSE MV/Family computers which are part of Hutton's Branch Information Processing System (BIPS). Through BIPS, computing power is distributed to more than 400 branch offices supporting 10,000 users.

Systems Division employees developed a "customized" software program which allowed E.F. Hutton's stock brokerage software to interact with the CEO comprehensive electronic office system. This made it possible for computer users at E.F. Hutton to transfer messages and files between the two different systems so that users could take advantage of CEO office automation functions such as mail, filing, document viewing, indexing, document and message printing.

The project involved the cooperation of the Systems Division at both Cambridge and Santa Ana, Calif., along with the CEO development group at Westboro. Under the direction of Project Manager Frank Frazier, the project team brought together a wide range of programming skills in a coordinated effort to produce a high-quality product in a timely manner.

Treasury Group Receives Award

Vice President and Treasurer George McClelland presents the "Treasury Person Of The Quarter" award to Employee Shareholder Services' employees: (left to right) Linda Sandstrom, Leeann Pelissier and Nancy Bissett.

The "Treasury Person Of The Quarter" award, for Quarter 2 of fiscal year 1986, last week was presented to not one, but three employees. Linda Sandstrom, Nancy Bissett and Leeann Pelissier, all of Employee Shareholder Services, were recognized for their work in successfully completing major projects despite tight deadlines.

In presenting the award, Vice President and Treasurer George McClelland, remarked, "Linda, Nancy and Leeann are commended for their outstanding efforts within Employee Shareholder Services. They are recognized for their combined talents in getting the job done as a team."

Linda, Nancy and Leeann effectively worked together to carry out special projects that resulted in a significant cost savings to the company. These projects, occurring simultaneously, all were completed in a timely manner.

In addition to their daily responsibilities, the three Treasury employees completed a worldwide project involving more than 2000 employees; coordinated the mailing of a tax inquiry to more than 2500 employees; administered the Employee Stock Purchase Plan for more than 4500 participants, and prepared updated W-2 forms for employees.

Milestones

Congratulations to the following employees celebrating service milestones during the month of June.

In International Marketing...

Jim Glista has been named International Distributor Development manager reporting to Mike Ache-

son, director of International Marketing. Jim is responsible for developing marketing programs in support of Data General's international representative and distributor sales and marketing networks.

With Data General for more than eight years, Jim most recently was Data General-Asia's Regional Marketing Programs manager, based in Hong Kong. He also has held positions in the Japanese Business Development group and Engineering.

Direct Deposit For Expense Checks

Westboro, Manchester and field employees now may have their business-expense reimbursement checks directly deposited into a bank account other than the account used for direct-deposit of their payroll checks.

Employees interested in taking advantage of this new option should complete a Direct Deposit Authorization form. This form may be obtained from Payroll or through the Travel and Expense department at Manchester.

It should be sent, with a voided check for the appropriate account, to the Travel and Expense department at Manchester, mail code 1E. The outside address is:

**Data General Corporation
Travel and Expense Department
670 North Commercial Street
Manchester, NH 03101**

Allow three weeks, from receipt of the Direct Deposit Authorization form and voided check, to take effect. Questions on this new feature may be directed to the Travel and Expense department through its "CEO Hotline" at TECS:FIN7.

Westboro

Mark Your Calendar For The Summer Blood Drive

Health Services will sponsor a summer blood drive on Wednesday, July 16 and Thursday, July 17. At this time, employees can help replenish the community's blood supply. This will help ensure that there is enough blood for needy patients in area hospitals.

Sign-up will be held in the cafeteria on Tuesday, July 8 and Wednesday, July 9 in the cafeteria, from 11 a.m. to 2 p.m. An additional sign-up will take place in the pizzeria on Monday, July 14 and Tuesday, July 15, during the same times.

14B Power Outage Reminder

Air-conditioning systems and selected electrical-power units in Building 14B at Data General Westboro will be shutdown during the Fourth of July weekend. During this time, major installations will take place which will increase air conditioning and electrical power capacities.

Departments in that area are requested to shut off all computer and other electrical-power equipment no later than midnight on Thursday, July 3. This equipment may then be turned on Sunday, July 6 at 9 p.m.

This temporary power outage will affect Building 14B only. However, the lighting system in Building 14B will remain on. Building 14A will not be affected.

Training

M.O.D. Courses Study How To Run The Business

A pair of courses specifically designed for Data General senior managers recently was sponsored by Corporate Management and Organizational Development (M.O.D.). *Managing Innovation* and *Advanced Management* each were week-long seminars held at Woodstock.

Sponsored jointly by Corporate M.O.D., the Business Divisions and Corporate Technology, *Managing Innovation* helped participants deal with complex issues that impact the management of technology.

A group of 25 managers from the Systems Development Division (SDD), Corporate Technology, Product Marketing and Field Engineering attended the course.

Lectures, discussions and case studies had the managers actively involved in analyzing and solving concerns specific to the product innovation process at Data General. The course concluded with team presentations of issues and recommendations to Tom West, vice president of SDD, and Vahe Sarkissian, vice president of the Sunnyvale Division.

The second course offered by M.O.D., *Advanced Management*, provided senior managers from all areas of the business with an increased understanding of their role in keeping the company a success. A group of 18 managers from the North American Sales Division, Field Engineering, Manufacturing, Customer Service, Americas/Far East and the Business Divisions took part in the program.

Taught by two Northeastern University professors, the program used case studies from the high technology industry as models for solving issues that may arise in employees' own work situations. Participants

teamed up and presented their ideas to Tony Nicoletti, vice president of Field Engineering Support, and Larry Holswade, Federal Systems Division vice president.

Participants welcomed the opportunity to share their strategies with the executives, and felt it was a fitting conclusion to the week's activities.

M.O.D. continues to expand its course offerings available to managers. For more information on these seminars or any M.O.D. course, contact Corporate M.O.D. at extension 6958 in Westboro or your divisional M.O.D. representative.

Employees take part in the recent Advanced Management Course, offered by Corporate Management and Organizational Development.

Hardware Maintenance Courses Scheduled

Three courses that teach the basic techniques for maintaining and troubleshooting Data General 16- and 32-bit processors will be conducted during July by Educational Services at the Education Center at 2400 Computer Drive in Westboro.

Data General Computer Architecture, H100, is a five-day course that starts Monday, July 7.

Data General 32-Bit Computer Architecture, H100/MV, also is offered during the week of July 7.

Diagnostic Operating System User, H101, is designed to follow the preceding classes. It is being offered Monday, July 14 through Wednesday, July 16.

To enroll in any of these courses, call Central Registration at 221-1646 in Westboro. Prior supervisory approval is required.

C Programming Course To Be Offered In July

Educational Services has scheduled a three-day seminar on C programming exclusively for Data General employees.

Taught by Professor Georges Grinstein of the University of Lowell, *C Language: An Introduction* (SM131E) will be held at the Education Center at 2400 Computer Drive on Monday, July 14 through Wednesday, July 16. To enroll, call 221-1646. Supervisor's prior approval is required for enrollment.

Fort Worth Address Change

The Fort Worth, Texas Field Engineering and Sales office has relocated. The new address is as follows:

**7423 Airport Freeway
Fort Worth, Texas 76118**

Telephone:

(817) 284-6414 - Field Engineering

(817) 284-5009 - Sales

Activities

Bus For Data General Outing In August

The Data General Activities Committee has made special arrangements to charter a bus for the Concert at the Great Woods outing, scheduled for Sunday, August 17 at 7:30 p.m. The bus will leave the 14B lobby in Westboro at 6:30 p.m.

Bus tickets are \$6 each. They may be ordered by sending a check made payable to the Data General Activities Committee along with a stamped, self-addressed envelope to: CONCERT COACH, Mail Stop 4-23 in Southboro.

Reduced Ticket Prices For The New England Aquarium

Data General employees can now receive discounts off the regular ticket prices to the New England Aquarium in Boston.

By presenting a Data General identification badge, employees may get adult tickets for \$1-off the regular admission price, and children's tickets for a \$.50-reduction. The offer expires on October 31, 1986. Regular prices are \$5.50 for adults and \$3.25 for children aged 4 to 15 years.

Save On A Trip To Islands With Ferry Discount Coupons

Discount coupons for approximately 10-percent off the ferry ride to Martha's Vineyard and Nantucket now are available through the Data General Activities Committee.

To receive a discount coupon, send a self-addressed interoffice envelope to: FERRY, Mail Stop

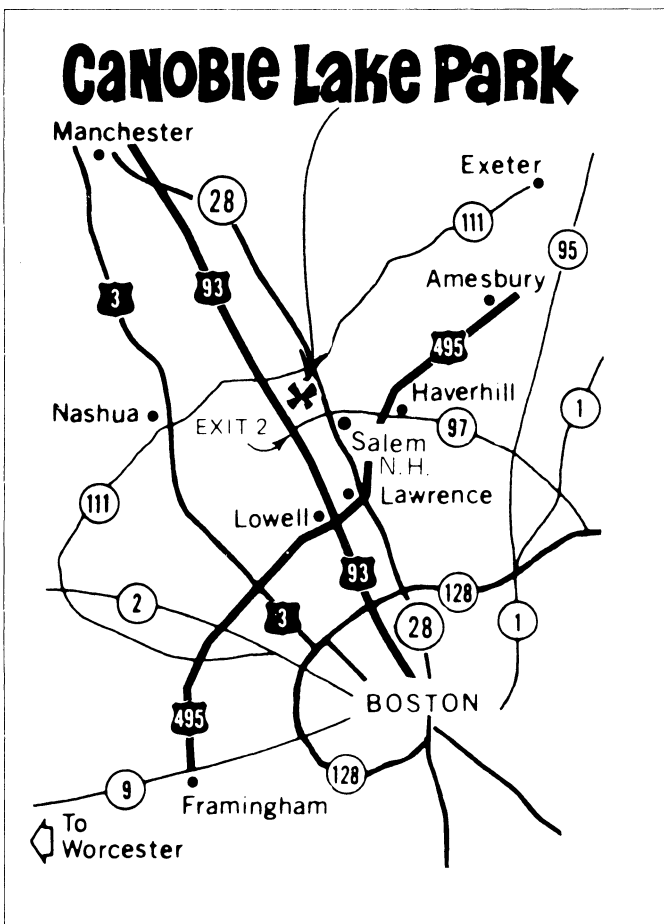

C128 in Westboro. Indicate the number of coupons needed. One coupon is good for the whole family.

Tickets prices for the ferry vary with the seasons. Steamship Authority ferry schedules are available upon request.

Two More Weeks And It's Off To Canobie Lake Park

The Canobie Lake Park outing takes place on Saturday, July 12, from noon to 6 p.m. The amusement park is in Salem, New Hampshire, which is about a one-and-a-half hour drive from Westboro.

Directions are easy to follow. Take Route 495 north to Route 93 north. From there, take a right off Exit 2, then turn left at the first set of traffic lights. Follow the signs leading to the park. (See map below.)

Pearle Vision Center Discount Cards

Employees may save 15 percent off existing retail prices for lenses, frames, hard and soft contact lenses and other optical accessories at Westboro and all participating Pearle Vision Centers. Reduced prices are received by presenting a special discount card.

To receive a Pearle Vision Center discount card, send a self-addressed interoffice envelope to: EYE CARE, Mail Stop C128 in Westboro.

Candlepin League Wraps Up Season

The Data General Candlepin League marked the end of its 1985/86 season with a cookout at Dean Park in Shrewsbury. This year's first-place team was "1/2-In-The-Bag." "Who Us" won in the roll-off.

Individual achievements for the year are as follows:

Men:

High Average - *Bob Hubbard* - 104

High Three - *Matt Brennan* - 379

High Single - *Charlie Bacon* - 145

Women:

High Average - *Judy Glasgow* - 91

High Three - *Marjorie Harnden* - 301

High Single - *Madeleine Andrews* - 109

The winners are pictured below.

The team, "1/2-In-The-Bag," took first place in the 1985/86 season of the Data General Candlepin League. Winners are: (left to right) Gary Rodgers, Doug Wood, Matt Brennan and Shawn O'Reilly.

"Who Us" members are: (left to right) Bruce Zarenko, Michael Dupras, Andrea Midtmoen and Andy Kubicki.

Runners Show Good Results

A group of runners from Data General recently competed in the New England Track Association's Cup Relay Championship in Dedham. Employees Winston Chang, Rosemary Hayes, Jim Kent, Doree Mendall and Greg Yannekis made a good showing at the track event.

In the women's five-kilometer, Rosemary finished 21st, second in her age group, with a time of 21:22.

Doreen finished 39th with a time of 23:23. In the men's five-kilometer event, Winston had a 9th-place finish and a time of 16:13, while Greg finished 39th with an 18:08 time.

In the mile event, Jim and Greg ran 4:35.6 and 4:51.7. Doreen, Winston, Rosemary and Jim placed in the three-lap sprint for Data General.

Want To Join Aerobics?

The Data General Fitness Club continues its on-site exercise program with a sign-up for the sixth aerobics session. New members may sign up on the first day before the start of either of the following classes.

Dancin' Aerobics and Free Style Aerobics are offered twice-a-week in the main cafeteria at 5:30 p.m. for an eight-week period. Dancin' Aerobics classes will take place every Monday and Wednesday starting on Monday, July 7. The Free Style Aerobics session will be held every Tuesday and Thursday, beginning on Tuesday, July 8. All classes are taught by qualified exercise instructors from the Greater Worcester YMCA.

The cost is \$20 per person for the eight-week program. Repeat attendees need only fill out the form below and mail it to Carol Brestovan at Mail Stop B135 in Westboro along with a check. All payments must be made in check, made payable to the Data General Fitness Club.

Generals Place High In National Ranking

A Data General softball team, "The Generals," currently ranks in the top 20 softball teams in the United States. It placed 13th in the U.S. Slow-pitch Softball Association's national ranking for Men's Industrial Class A teams.

Says Dennis Bishop, Data General Softball League commissioner, "To be considered for placement is an achievement in itself. The Generals and its coach, Troy Taylor, are congratulated for their outstanding achievements in the sport."
