News For The Employees of Data General

August 22, 1986

Holiday Upcoming

Employees are reminded that Monday, September 1 is Labor Day, a Data General-paid holiday. Time cards for the week ending August 30 will be due in Payroll on Thursday, August 28 at 3 p.m. Any unscheduled overtime should be recorded on the following week's time card.

Other holidays remaining for 1986 are:

November 27 (Thursday)	Thanksgiving Day
November 28 (Friday)	Day After Thanksgiving
December 25 (Thursday)	Christmas Day
December 26 (Friday)	Day After Christmas

In addition, two personal holidays are available to each regular employee scheduled to work more than 40 hours a week and hired before July 1, 1986. (Personal holidays not taken before December 31, 1986 may not be carried over to the next calendar year.)

Foxworthy Appointed Field Engineering Director

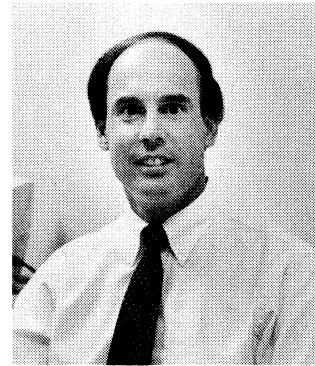

Jim Foxworthy has been named division director for North American Field Operations, reporting to Bill Bentley, vice president of North American Field Engineering. In this position, Jim will direct Data General's field service operations in the United States and implement programs to ensure the service and support needs of Data General customers are met.

Most recently, Jim served as the director of Customer Support for the company's Customer Support Center in Norcross, Ga. He joined Data General in 1984, after 30 years at IBM where he held numerous management positions within its field service organization.

Jim participated in Emory University's executive development program and attended the Southern Technical Institute.

Reporting to Jim are Field Engineering Area directors: Pat Forgey of Area 1; Lynn Butler of Area 2; Tom Rizk of Area 3, and Ray Anderson of Area 4. Field Support Operations Manager Julie Brownell also reports to Jim.

George Doble Named Customer Finance Director

George Doble

George Doble has been promoted to director of the Customer Finance Group, reporting to Vice President and Treasurer George McClelland.

The Customer Finance Group provides lease financing to Data General customers who wish to finance their computer acquisitions. George will oversee the development, implementation, marketing and administration of worldwide leasing programs for Data General.

George joined Data General in 1983 as manager of Corporate Leasing responsible for the development and management of Data General's leasing business. Prior to joining the company, he held various management positions in the customer finance organization at Digital Equipment Corporation.

George received a bachelor's of business administration degree in accounting from St. John Fisher College in Rochester, N.Y. In addition, he completed the graduate program of credit and financial management at Williams College, and recently completed the Executive Development Program at the Johnson Graduate School of Management at Cornell University.

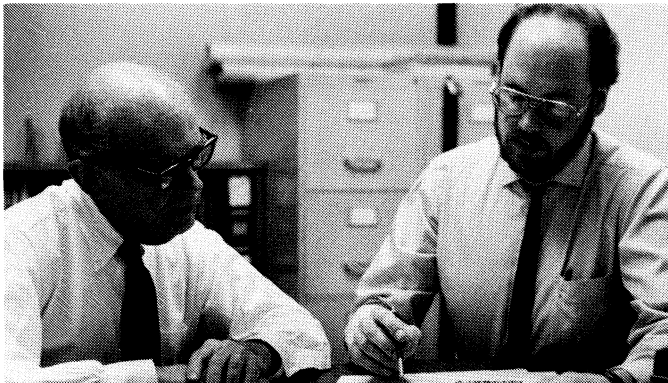

Think Security!

Corporate Safety/Security this fall is kicking off a new program designed to keep "security awareness" in the eyes and minds of all employees. A series of four, full-color, 8 1/2-by-11-inch posters, each carrying variations on the theme "keep company confidential information secure," will be distributed to Data General offices and facilities worldwide at the beginning of each quarter during fiscal year 1987.

Keeping company information secure is a matter of concern to all employees. The competitive advantages which Data General has attained are directly attributable to employees' ability to keep Data General proprietary information to themselves. The posters help convey that message.

"A picture is worth a thousand words," says Harvey Burstein, director of Corporate Safety and Security. Harvey called upon Educational Services in Westboro for its help in designing and producing the posters. Tim Foley, group leader and senior graphics illustrator within Documentation Design, created the series which depict real-life situations in which the security of Data General assets may be at risk.

The first in the series of security posters will be posted at all Data General facilities worldwide at the beginning of fiscal year 1987. The remaining three posters will be mailed out for posting as each new quarter approaches.

Corporate Safety and Security Director Harvey Burstein (left) and Tim Foley, group leader and senior graphics illustrator within Documentation Design in Westboro, discuss ideas for the new safety poster series - coming to Data General offices this fall.

Optical Disk Subsystem Has High-Capacity Storage

Data General has announced an optical disk subsystem designed for Data General computer systems and targeted at applications requiring the long-term storage of permanent records. The 1-gigabyte (1 billion bytes) optical disk subsystem (Model 5070 OD) is a compact, rack-mounted unit,

that uses easy-to-handle 12-inch removable disk media.

The optical disk subsystem is particularly useful in medical, data archiving, financial, image processing and other environments requiring high-capacity, long-term data storage. The optical disk also is a practical solution where access to large data bases is needed.

Priced at \$29,995, the optical disk subsystem is available 60 days after receipt of order.

Data General Distributors Receive Sales Training

Distribution Division Training Manager Judy Libenson (front row, far left) and Distributor Manager Randy Glickman (middle row, second from left), helped put together a course for a class of Data General distributors on how to sell the ECLIPSE MV/2000 DC system to original equipment manufacturers.

Training on how to sell ECLIPSE MV/2000 DC computers to value-added resellers, also known as original equipment manufacturers (OEM), recently was delivered to representatives of several Data General distributors - Schweber Electronics, Almac, Kierulff and Diplomat. Development and delivery of the three-day intensive session was managed by Training Manager Judy Libenson of the Distribution Division.

The Distribution Division markets Data General computers through all reseller channels. Distributors provide two-tier distribution for the ECLIPSE MV/2000 DC system by re-selling this product to small value-added resellers who, in turn, sell their business solutions to small end users. Training is an important element in increasing Data General sales through reseller channels.

Developing a course specific to the distributors' selling needs took a great deal of thought and preparation, as no such course materials were yet available. Judy received input on requirements from Distributor Manager Randy Glickman and the distributors, themselves. She then worked with employees from various groups throughout Data General, such as Marketing Education, Educational Services, Field Engineering, Manufacturing, Corporate Sys-

tems Support at both Westboro and RTP, the North American Sales Division and Sales Administration, to develop a curriculum geared specifically to the target audience, and to assign and brief instructors.

As Channel Development Manager Anne Peter explains, Judy's efforts proved fruitful. "Judy's in-depth knowledge of how to organize and deliver a successful class made it possible for her to manage and coordinate many different pieces and put them all together into a coherent session which focused on specific channel needs. The training was a success."

The class was well received by the attending senior sales managers and product managers, who commented on the "high degree of professionalism and enthusiasm shown by the instructors." They also expressed their appreciation for the training support provided - support that will help them win new sales for Data General.

People

In Systems Engineering...

Jeff Merzel has been promoted to Branch Systems Engineering manager within Region 1 at Wellesley, reporting to Regional Systems Engineering Manager Dan Fennelly.

With Data General since 1979, Jeff previously was a Regional and Branch systems engineer. He started with the company in the Software Development group. Jeff holds a BS in computer science from Columbia University.

In Purchasing...

John Hartjen has been promoted to manager of General Purchasing, reporting to Dean Sasek, Purchasing manager of Indirect Materials and Services. John is responsible for the acquisition of all indirect material for Westboro and negotiates purchasing contracts in support of the entire company.

John has been with Data General for more than 10 years, working as a Peripherals Purchasing consultant and within Field Engineering.

Also reporting to Dean is **Al Regina**, who has been named manager of Major Acquisition Purchasing. Al is responsible for major purchases such as capital equipment, construction, telecommunications, software and transportation materials.

With Data General since 1981, Al holds a JD from Western New England College in Springfield and a BA from the University of Hartford.

User Systems Development Presents Director Awards

User Systems Development Director Al Scura (left) presents the Director's Award to David Frary and Mary Kilgallen.

Director Awards for outstanding achievements on key development products were presented to employees within User Systems Development (USD): Mary Kilgallen, Dave Frary, Kathleen Garner, Ken Remillard, Steve Taylor, George Herman and Sydney Seifert of RTP.

USD, led by Director Al Scura, is responsible for the development, documentation and support of Data General's software application products. Within USD, the Customer Documentation, Software Qualification and Support, Performance Analysis and Application Products areas combine technical excellence with close customer contact and assistance.

Outstanding Achievers

Mary Kilgallen received the award for coordinating the smooth implementation of the corporate Trouble Reporting Management System (TRMS), an electronic system that processes software-troubleshooting reports (STR) without the added burden of paperwork. She also developed a training package for TRMS and led 18 training sessions within a two-week period on the new system. Exemplifying what it takes to be an outstanding achiever, Mary continues to enhance the system as issues arise.

Dave Frary earned the recognition for his many hours of careful planning, patience and teamwork involving AOS/DVS operating system revisions. As a task leader, Dave has effectively worked with others and managed qualification of the product in a timely manner.

Kathleen Garner won the Director's Award for developing the interactive tutorial program that goes along with the AOS/VS operating system for the ECLIPSE MV/2000 DC computer and the DS distributed systems family of engineering workstations. Kathleen went above and beyond her normal respon-

sibilities to redesign and reorganize the tutorial and make it more easily understood by users.

Ken Remillard was recognized for his work in developing a voice messaging system. Working with other Data General groups, he led the software development effort for the project and successfully completed a company-wide review of the new system. Ken handled his responsibilities in a professional manner, exhibiting enhanced leadership skills throughout the entire project.

Steve Taylor developed a revision of PRESENT, on schedule, for a major Data General customer. Steve enhanced many significant features included in the revision. These enhancements to the product open up a whole new range of applications for Data General PRESENT users.

George Herman of the Performance Analysis group earned the award for helping to carry out more than 40 benchmarks for software running on Data General equipment. George works closely with developers to resolve any software issues resulting from the analysis. He also effectively manages the new Performance Laboratory.

RTP employee **Sydney Seifert** received recognition for her support of the Data General UNIX operating system development project. Sydney taught a portion of the *Introduction To UNIX* course, which was deemed a success by many members of the class. Sydney also played a major role in the pre- and post-sales customer support of UNIX, as she made presentations and answered customer questions on concerns regarding the product.

User Systems Development Director Al Scura (middle) also presented Director's Awards to: (left to right) Ken Remillard, Steve Taylor, Kathleen Garner and George Herman, for their outstanding contributions.

Mini News is published weekly for the employees of Data General-Westboro. Material may be submitted for publication to Joy Ibrahim, extension 4705, MS A235. Data General - An Equal Opportunity Employer.

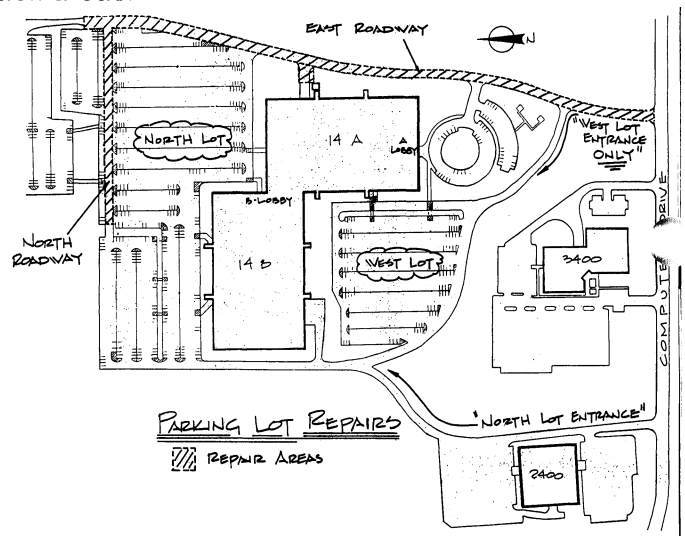

Westboro

Road Construction Continues

Employees are reminded of the on-going construction of the East and North driveways. A portion of the East Road, from the Visitor's Circle entrance to the rear of the North Parking lot, is temporarily closed to all traffic.

Employees who park in the North lot should enter and exit via the 2400 Computer Drive access road. West Lot users can continue to enter and exit via the East Road to the West lot access. See map below.

A section in the rear of the North parking lot also is closed to permit work to progress. However, overflow parking will continue to be available in the lower North parking lot. For safety's sake, all walkers, joggers and cyclists should avoid construction areas.

Lost And Found

Have you ever lost a personal item at work and did not know who to ask for help?

Westboro's Security department has a lost and found drawer containing a number of unclaimed articles such as clothing, jewelry, prescription eyeglasses, keys and calculators. All property turned in to Security is kept for 30 days and then discarded, if unclaimed.

To inquire about lost items, call Security at extension 6100 in Westboro or stop by at any time at Mail Stop C111.

Training

Classes Scheduled During Holiday Week

The following training programs, offered by Educational Services, will be held at the Education Center at 2400 Computer Drive in Westboro. Both classes begin on Wednesday, September 5. They are:

- *Computer Concepts* (S100) - three days
- *PRESENT for Programmers* (S142) - two days

To enroll or for more information, call Central Registration at 221-1646. Prior approval of your manager is required for registration.

MS-DOS Classes Open For Enrollment

Space is still available in the two-day *Introduction to MS-DOS* course, S145E, offered by Educational Services. This course will be conducted at the Education Center at 2400 Computer Drive on the following dates:

- August 25 - 26
- August 27 - 28
- September 8 - 9
- September 10 - 11
- September 22 - 23

Class size is limited, so call early to reserve one of the few remaining seats in these classes. To enroll, call Central Registration at 221-1646. Prior approval of your manager is required for registration.

Baltimore Relocation

It's Not Too Late!

There is still time to take advantage of employee discounts for the ferry to Martha's Vineyard and Nantucket.

To receive a discount coupon, send a self-addressed inter-office envelope to: FERRY, Mail Stop C128 in Westboro. Indicate the number of coupons needed. (One coupon is good for the whole family.) Also, Steamship Authority ferry schedules are available upon request.

Water Park - Largest In New England

The Data General Activities Committee has made available to employees discount tickets to Water Country, New England's largest water park, in Portsmouth, N.H. Tickets include all-day use of Water Country's wave pool, seven water slides, swimming pool and kiddie area.

Discount tickets for adults are \$9 each, with regular admission being \$12. Tickets for children under 7 years old can be purchased at the door at \$6 a piece.

Send ticket requests to: WATER COUNTRY, Mail Stop C128 in Westboro. Be sure to include a stamped, self-addressed envelope. Checks should be made payable to the Data General Activities Committee.

Run With Data General

The Data General Runners Club is organizing teams to compete in the J. Bildner and Sons Corporate Cup Race, taking place on Sunday, September 21, at 10 a.m. along the banks of the Charles River in Boston.

The four-mile race starts and finishes on the Boston side of the Longfellow Bridge. Employees interested in participating should contact Doreen Mendall at extension 6485 in Westboro.

Candlepin Bowling Begins In September

The Data General Candlepin Bowling League begins its season on Wednesday, September 3 at 5:30 p.m. The league bowls at the Town and Country Lanes on Route 9 in Shrewsbury.

Any Data General employee may join as a regular member or as an alternate. Bowlers who wish to continue from last year must resubmit their names. Contact Doug Peeke at extension 6854 in Westboro, Mail Stop F213, or Judy Glasgow at 221-1616, Mail Stop 1D, to sign up.

Tenpin Bowling Meeting Next Week

For employees interested in forming a Data General tenpin bowling league, a meeting will be held on Wednesday, August 27, at 5 p.m. at the Town and Country Lanes on Route 9 in Shrewsbury to determine the interest and structure of the league. Lanes will be available for bowling on that day.

Bowlers at all levels of experience are invited to attend the meeting, visit the facility and bowl. For more information on Data General tenpin bowling, contact Helene Plotka at extension 3086 or Barbara Rennert at extension 6907 in Westboro.

Sign Up For Aerobics

The Data General Fitness Club continues its on-site exercise program with a sign-up for the next aerobics session. New members may sign up on the day before the start of either of the following classes.

Dancin' Aerobics and Free Style Aerobics are offered twice-a-week in the main cafeteria at 5:30 p.m. for an eight-week period. Dancin' Aerobics classes will take place every Monday and Wednesday starting on Wednesday, September 3. The Free Style Aerobics session will be held every Tuesday and Thursday, beginning on Thursday, September 4. All classes are taught by qualified exercise instructors from the Greater Worcester YMCA.

The cost is \$20 per person for the eight-week program. Repeat attendees need only fill out the form below and mail it to Carol Brestovan at Mail Stop B135 in Westboro along with a check. All payments must be made in check, made payable to the Data General Fitness Club.

All Star/Executive Softball Games Are Tonight

The Data General Softball League will hold its annual all-star event tonight at the Knights of Columbus field in Ashland. The games will feature all-star players from both leagues squaring off against each other to determine the "superior" division. In addition, a Data General executive team has been assembled to face the league officers.

Games will begin with the American League playing at 5:30 p.m., followed by the executive game at 6:45 p.m. and the National League game at 8 p.m. Refreshments will be available. (In case of rain, games will be played on Friday, September 12.)
