News For The Employees of Data General

July 10, 1987

New DATA GENERAL/One Service Offered

Employees in Westboro, Southboro and Milford who use DATA GENERAL/One Model 1 or Model 2 portable computers can now have expired batteries in the computers replaced in Westboro for a minimal fee. Rather than ship the system to the Product Repair Center (PRC) in Fountain, Colorado, employees can bring it to the Field Engineering branch in Westboro at Mail Stop D124.

Each DATA GENERAL/One unit with an LCD screen has a lithium and a nickel-cadmium battery. The batteries have a life of two to three years. Because of the complexity involved and electro-static discharge considerations, replacement of the lithium battery in the Model 1 computer and the nickel-cadmium battery in the Model 2 computer must be done by a Field Engineering specialist. All batteries in the recently-announced DATA GENERAL/One Model 2T computer can be replaced by the user.

Users with company- or employee-owned Model 1 or Model 2 systems that require new batteries should call 1-800-DG-HELPS to schedule a time to deliver the unit. Drop-off times will be from 9 to 11 a.m. daily. Units may not be mailed to the branch.

North American users requiring service other than battery replacement should phone 1-800-DG-HELPS and then send their units to the PRC at 702 Frontage Road, Fountain, Colorado, 80817. The PRC also will continue to accept DATA GENERAL/One computers for battery replacement/head cleaning service.

Consultants From Italy Spend Week With Data General

A group of 20 computer industry consultants from Italy are now "experts" on office automation, following a week-long tour of Data General and visits to several of its customers. The Studio Organizzativo De Industrie (SOI) each year chooses a high technology company with which to spend a week, meeting with both company executives and customers. This year, SOI reviewed operations at Data General.

"In the past, SOI met with IBM and Digital Equipment. We were pleased to have the opportunity to host the group this year, and show them what Data General is all about," says Janice Levenson, Marketing consultant within the Corporate Conference Center.

During its visit to Westboro last month, the group was given several product demonstrations. Members were extremely interested in CEO comprehensive electronic office software, CEO Voice, and PC*I, Data General's strategy to link IBM and IBM-compatible computers to Data General systems.

"The group was able to learn a great deal about Data General, thanks to the many demonstrations and presentations. They provided the group with a well-rounded picture of the company," Janice says.

The group concluded its day in Massachusetts with a presentation given by Andria Rossi, of Rossi Consultants, who addressed the visitors on the future of office automation.

The rest of SOI's week was spent at Data General customer locations.

SOI began its U.S. tour in Chicago, visiting with Premark. Premark is one of the largest users of CEO software in the midwest. It has been using CEO for the last three years on a variety of Data General systems. The firm is also a large user of Lexis and Nexis information services which can be accessed via DG/Gate.

Following its tour of the Premark facility, the SOI group paid a visit to the offices of the City of Chicago. The city government currently operates six Data General ECLIPSE MV/Family computer systems, which are used in a variety of applications. The Department of Inspectional Services uses an ECLIPSE MV/Family computer to automate the legal process for the courts and their dockets. The Department of Health is automating its vital records. They can communicate with more than 400 clinics within the city, in an effort to update birth and death records, for example. This is done through the use of CEO and some COBOL applications which run in the CEO environment.

The third stop on the group's tour was Pittsburgh, where it met with executives at Westinghouse. Westinghouse is currently using 21 ECLIPSE MV/Family computer systems in its artificial intelligence group, the Plant

Engineering department, and in the Service and Engineering group.

Following that stop, SOI spent some time with members of the Employee Relations Office of the State of New York in Albany. It is currently using a wide range of Data General computers, from the ECLIPSE MV/10000 computer to the ECLIPSE MV/2000 DC system to handle administrative chores. In addition, these systems are able to share data with IBM systems. The ECLIPSE MV/Family systems support more than 100 users who are using IBM PCs and DASHER workstations. While on the road, the employees use DATA GENERAL/One computers.

The last stop on the trip was the Federal Reserve Bank in New York. The bank helped to test PC*I before the product had been announced. It is currently using a Data General system to integrate IBM PCs and DASHER 286 workstations.

Users Group Conference Plans Are Underway

The 1987 Conference of the North American Data General Users Group (NADGUG) will be held October 19-22 at the Tropicana Hotel in Las Vegas.

Conference attendees will be able to choose from management, technical and end-user sessions, as well as Educational Services seminars, roundtables, exhibits and informal get-togethers. The conference, which is expected to draw more than 800 people, will provide an excellent opportunity for users of Data General systems to discuss their systems' applications.

Any employee who would like more information on the conference may contact the Users Group staff at (tie line 232) extension 4067 in Westboro.

People

In Field Engineering

Daryl LaForce has been promoted to assistant Product Support engineer within the Product Support Engineering department. He reports to Jim Gossett, manager of the Product Technical Support group. Daryl is responsible for supporting communications software and hardware. He has more than eight years of experience with Data General, including three years as a Product Support Engineering lab technician within the Product Support group and five years as a senior technician in the Southboro facility. Daryl has attended Sylvania Technical Institute.

In SDD

John Brennan has joined Data General as a thermal engineer within the Thermal Engineering department, reporting to Manager Bob Neville. John is responsible

for providing cooling support for new Data General products being developed. He holds a degree in mechanical engineering from Rensselaer Polytechnic Institute.

Mike Tavis has joined Data General as a software engineer within the Application Products department, reporting to Arvind Goyal, section manager within the User Systems area. Mike supports UNIX workstation-based distributed applications.

Before joining the company, Mike was employed by NCR in California and by the data communications department at Columbia University. He holds a bachelor's degree in engineering from Columbia.

In CSG

Pete McCann has joined Data General as a software engineer within the Communications Systems Group, reporting to Manager Peter Conway. He is responsible for the support of resource management products, as well as development work on application layer platform products.

Prior to coming to Data General, Pete was employed with RCA Automated Systems. He holds a bachelor's degree in computer and systems engineering from Rensselaer Polytechnic Institute.

In Continuing Products

Pete Thompson has joined the Continuing Products Division as a marketing specialist, reporting to Greg Coppola, manager of the Refurbished Equipment Marketing group. Peter will be responsible for helping the Sales force sell refurbished hardware and upgrades.

Pete joined Data General in 1982 as a field engineer in the Woburn office.

In Finance

Phillip DeCristo has been named Accounting manager within the Finance division, reporting to Richard Egan, plant controller in Southboro. Philip is responsible for supporting operating budgets and product cost center accounting in Southboro.

Philip has been with Data General for a number of years, and has worked as a senior financial analyst. He has earned a bachelor's degree from Boston College and an MBA from Babson.

Michelle Cambrola has been named senior financial analyst within the Manufacturing Financial Control department, reporting to Judy Keefe, manager of the Manufacturing Performance Measurement group. Michelle is responsible for the review, consolidation and coordination of Worldwide Manufacturing's budgeting, forecasting and reporting.

Before joining the Finance division, Michelle worked in Special Systems in Southboro as a financial analyst and a cost accountant. Before joining Data General, she worked for Data Packaging Corporation as a cost accountant. She holds a bachelor's degree in accounting from Johnson and Wales College.

Barbara Creed has joined Data General as a financial analyst within the Treasury department. She reports to Manager Ann Marie Belforti. Barbara is responsible for international cash balance analysis, as well as international bank account audits.

Before joining Data General, Barbara was employed at the University of Aberdeen in Scotland, Putnam Advisory and Batterymarch Financial Management, both in Boston. She has earned an MBA from Boston University and a bachelor's degree in economics from Denison University.

In Educational Services

Pete Sherman has been promoted to branch manager of the Software Education Center within Corporate Educational Services in Westboro. He manages the Boston Software Center, and is responsible for supporting customer and employee training. Pete reports to Jim Montagnino, North American Operations manager.

In his ten years with Data General, the past eight within Educational Services, Pete has been an instructor, section manager, project leader and most recently, system training specialist. He holds a bachelor's degree in computer science from Union College in New York.

Benefits

New Stock Purchase Period Begins August 1

Employees who work at least 20 hours a week and have one year of service on August 1 are eligible to have a specific dollar amount deducted from their paycheck each week to purchase Data General stock. The amount of the deduction can be as low as \$5 or as high as 10 percent of your basic earnings on the first day of the period. The stock will be purchased at 85 percent of the average market price on the first or last day of the payment period, whichever is lower. The new payment period will extend from August 1 to January 30, 1988.

If you are currently participating in the plan and wish to make a change for the period beginning August 1, you can obtain the necessary form from your Human Resources representative or your local Benefits department.

Employees who receive sales commissions are reminded that the 10 percent maximum they can contribute to the program is based on their benefit salary, not their base pay.

Also, all employees are reminded that when they receive an increase in pay the percentage of their contribution does not automatically increase to reflect the pay raise. They must submit a new Authorization form specifying the amount they would like to contribute.

New participants or those making changes must complete an Authorization form and return it to the Benefits department no later than Friday, July 17.

The Stock Purchase Plan is explained in a prospectus and a Stock Plan booklet available through your local Benefits administrator or the Corporate Benefits department in Westboro.

Any questions concerning the plan should be directed to Ellen Stefanik at extension 4570 in Westboro.

Field Engineering Employees Celebrate Service Milestone

Nearly 60 Data General employees from Milford and Woodstock recently celebrated five years of service with the company. These employees were honored with a luncheon at the Sheraton Milford. They were awarded teak trays commemorating the major company events which occurred the year they were hired, June 1, 1981 to May 31, 1982. On hand to congratulate the employees for their contributions to the success of Data General were Bill Bentley, vice president of North American Field Engineering; Fred Cochrane, vice president of Engineering Services in Field Engineering, and Tim Morrison, director of Human Resources for the division. Fred shared a bit of history with the group, highlighting some of the major company events from the past five years, along with some anecdotes about the individuals being honored.

Training

Educational Services is offering the following hardware and software courses for Data General employees in July and August.

- **The AOS/VS Colloquium** - This one-time-only seminar will provide AOS/VS system managers, programmers and designers with valuable understanding of important aspects of AOS/VS architecture. Topics to be covered include: **Multi-Processors, Memory Management System, New File System, and Terminal Services**. This three-day colloquium begins on Monday, July 27.
- **ECLIPSE MV/Family Assembly Language Programming (S105/VS)** - Employees enrolled in this course will learn how to write, assemble, execute, and debug programs using the Data General ECLIPSE MV/Family assembly language and utilities. The prerequisites of S209 (AOS and AOS/VS User) and assembly language programming experience are needed to attend this five-day class which begins on Monday, July 27.
- **Programming in PL/1 (SM506)** - This seminar teaches programming in PL/1 using Data General's implementation of this language under AOS/VS. Employees must have taken an AOS/VS course, or have a working knowledge of CLI and an AOS/VS text editor, and programming experience in a high-level language. This three-day class starts on Monday, July 27.
- **Fundamentals of COBOL Programming (S110)** - This course is geared toward experienced programmers who need COBOL training for more advanced COBOL courses. It introduces the principles, conventions, and programming techniques of the COBOL language. Programming experience is needed to attend this five-day class beginning on Monday, July 27.
- **AOS/VS for the Hardware Specialist (H209)** - Employees familiar with data processing and hardware concepts will learn the basics of the AOS/VS operating system, including system use, the Command Line Interpreter (CLI), start-up and shut-down, monitoring and error recovery. This five-day class starts on Monday, July 27.
- **Introduction to Data General 16-Bit Computer Systems (H100)** - This hardware maintenance course teaches the Data General basic instruction set, standard and virtual console operations, and I/O operations. It also provides an overview of Data General mass storage devices, as well as Data General communications terminology. A knowledge of circuitry, number conversions, Boolean concepts and oscilloscope usage is needed to attend this ten-day class, which begins on Monday, August 3.
- **6236/6237 Disc Field Maintenance (H236)** - Designed for computer maintenance technicians, this course teaches how to load and run diagnostics and perform FRU-level maintenance on the Data General 6236/6237 disc. The prerequisite of H100 or H100/MV (Data General 16-Bit or 32-Bit computer systems) is required for this three-day class, which starts Monday, July 27.

Prior approval of your supervisor is required for course registration. Call (tie-line) 221-1647 to enroll in these or other classes. All classes will be held at the Education Center at 2400 Computer Drive in Westboro.

Activities

Rockingham Park Outing Tomorrow

The first Data General summer outing of the 1987 season, a day at Rockingham Park, is tomorrow, July 11. Bus transportation will leave the 14B lobby in Westboro starting at 11:30 a.m. Buses will depart as they fill. The last bus will leave at 12:00 noon. Lunch will be served buffet style at the park.

Directions: If you plan on driving to the park from Westboro, take Route 495 north to Route 93 north. Take the first New Hampshire exit marked Rockingham Raceway. The entrance is one-half mile down on the left. Just follow the signs.

Additional Events

If you have already signed up for another summer outing event and would like to attend Rocky Point you may purchase full outing tickets for \$18 per person, or admission and rides only tickets for \$6.50. Regular price for the admission and rides only tickets is \$11.20.

Forbidden Broadway

The Activities Committee has discount coupons for Forbidden Broadway, a musical revue in its third season at the Boston Park Plaza Hotel in Park Square. The show is a parody of Broadway hit musicals.

Performances are:

Tuesday - Friday at 8:00 p.m.

Saturday at 7:00 p.m. and 10:00 p.m.

Sunday at 3:00 p.m.

Discount coupons are good for \$5 off the regular admission price of:

Tuesday - Thursday - \$18.50

Friday & Saturday - \$21.50

Sunday - \$15.00

Coupons are good for any performance now through September 6.

Caribbean Cruise Is Full

The October 3 Data General Caribbean Cruise, aboard the Cunard "Countess", is full. All those who have signed up have received a confirmation notice from Crimson. Due to the large response, a standby list will be started. Those interested in adding their names to this list should contact Peter Faford at extension 6776 in Westboro, Mail Stop D 232, or via CEO address Faford P:WEBO71.

Data General Softball Standings

Data General Candlepin League Holds Awards Banquet

The top teams of the Data General Candlepin Bowling League recently were honored at an awards banquet at Stephanie's Restaurant in Shrewsbury. First place for the season went to Bob Hubbard, Bob Lange, Don Reed and Doug Peeke of the Alley Cats. Second place honors and play-off championship awards went to Mona Ames, Larry Bronisz, Jann Levesque and Don Wade of

the Pervs. Out Of Control took play-off runners-up. This team is comprised of Ken Remillard, Jerry Lam, John Schectman and Andy Dennie.

Individual awards went to Charlie Bacon and Joanne Dettman for high averages of 101 and 93, respectively. High triple went to Bob Hubbard for a 348 and Mona Ames for a 319. High single went to Doug Peeke with a 143 and Judy Glasgow with a 126. New league officers for the next season will be Ken Remillard, Andy Brand and Dave Levinson.

Data General Golf League Standings

Another Exciting Year For Data General Wallyball

The past year proved to be another exciting year for Data General Wallyball. Three new champions were crowned, while the fourth division winner, the Mouras, had a serious challenge on its dynasty. The overall balance of the league improved and more than half the teams could have won a championship with the right breaks.

The Competitive Division league crowned the **Mouras** (first place regular season) as champions, once again. In a very closely-contested match for the championship, the **Waybacks** lost to the Mouras in overtime. It was the second consecutive year that these two teams have fought for the title, but the Mouras showed they are not willing to relinquish the title yet. The Waybacks vow to make 1988 a different story.

The Semicompetitive Division crowned a new champion, **Corporate Materials**. It was the first time in many years that the regular season winner also won the playoff championship in this division. The **Grim Reapers**

The Wallyball Competitive Division champions for the 1986-87 season were the Mouras. From left are John Moura, Carlos Moura, Mario Moura, Joe Moura, John Moura and Paul Moura.

The Wallyball Semicompetitive Division champions for the 1986-87 season were the Corporate Materials. Team members are (from the left) Scott Menzell, Ron Swidack, George Newton, Jim Galvin, Brian Hickey and Dana Barisano. Not shown are Jay Stearns and Dave Haskell.

came within one point of elimination in the opening round of play and then stormed into the finals with upsets in the first two rounds of double elimination. Corporate Materials swept two tough matches from the Grim Reapers in the finals. The Grim Reapers plan on revenge in 1988.

In the Recreational Division A the **HACS** returned to the finals for the second year in a row and were not denied this time. They had to beat the first and second place teams from the regular season twice during the playoffs. The **Wallbangers** finished first in the regular season and just missed capping a great season in the playoffs against the HACS.

Recreational Division B likewise had a new champion. The **Busters** had the distinction of being the only team not to lose a match in the double elimination tournament and proved to be invincible throughout the playoffs. **Nerf** came out of the cellar at the midpoint of the regular season to finish fourth. Nerf managed to get into the final round and take the best-of-5 match to the limit but came up short against the B Busters.

The HACS were the Recreational Division A champions for the 1986-87 season. Team members are (from the left) Peter Tutas, Jose Leandres, Ernie Oliver, Margaret Degidio, Linda Geibel, Deb Hamalainen and Paul Abasciano.

The Busters were this season's Recreational Division B champions. In the front row are (from the left) Rita Hawthorne, Caroline Sheahan, Mike Gianneto, Barbara Ostrowski, Kare Mackinaw and Debby Matson. In the back row are (from the left) Bill Carroll, Jim Higgens, Jim Kent, Roland Theriault and Tom MacDonald. Not shown are Barbara Zack, Terry Brosnan, Erin Reap and Diana Demarcken.

MARKETPLACE

CARPOOL

Carpool , existing needs rider, leaves near Newton Corner, flex hrs, Jim, ext 6734.

Carpool , to join or form, Marlboro to Milford, Rt 2561 Milford.

Carpool , to form or join, Cambridge to Web0/Sobo, 8:30-5 flex, John, Sobo ext 220-7939.

FOR RENT

Efficiency , Dennisport, Cape Cod, patio, cbl TV, pool, near beach, \$295/wk or \$175/wk off-season, avail wknds, 435-3794 (Hopkinton).

Duplex , 2 bdrm, kitch, deck, cbl TV, near beach, Dennisport, Cape Cod, \$450/wk or \$295/wk off-season, 435-3794 (Hopkinton).

Town House , Mashpee, South Cape Resort & Club, 2 bdrm, 2 1/2 baths, frpl, laundry, patio, rent \$900 prime/wk, \$450 float/wk, sale \$18,000, 965-1746 (Newton).

Apartment , 1st fl, 6 rms, 3 bdrm, near Rts 9/290, 799-6873 (Worcester).

Apartment , lg 1 bdrm, kitch, lvg rm, pool/tennis, elec, \$640/mo, avail 8/16, August free, 653-8516 (Natick).

WITHOUT DATA GENERAL, INTEGRATING YOUR OPERATIONS IS LIKE MIXING CENTS AND PENCE.

DATA GENERAL GIVES BANKS THE MOST INTEGRATED COMPUTER SOLUTIONS.

Converting foreign currencies isn't a bank's only problem. You need to link different computers. Provide new customer services. And move toward a global 24-hour banking day.

In this competitive arena, banks need to solve these problems and enhance their bottom line.

Which is why Data General has formed alliances with a variety of companies. Including Citicorp and National Investor Data Services.

We're compatible with IBM. And we offer you industry communication standards. Like Ethernet® and X.25.

Put our leading CEO® office system at your fingertips. For

faster customer service. Increased productivity. And the most integrated computer solutions.

Half of all money center banks, top international banks and many regional banks profit from our systems.

Our solutions give you quality and value. Dollar for dollar.

Or, pound for pound.

To find out more, call: 1-800-DATAGEN.

Data General
a Generation ahead.
