## News For The Employees of Data General

---

March 25, 1988

### Savings And Investment Plan Deadline Is Today

Whether you are currently participating in the Savings and Investment Plan, or planning to enroll on April 1, you should be aware of the plan deadline. **Today, March 25** is the deadline for submitting all new enrollments and quarterly contribution changes to the Savings and Investment Plan. The enrollment forms (used for new enrollments, changes and fund transfers) must be returned to your local Benefits department by today for enrollments/changes effective April 1. If you have any questions regarding the plan, contact your local Benefits administrator or corporate Benefits department in Westboro.

6. Reimbursements for hotels not booked through Corporate Travel or approved as an exception are limited to a maximum of \$50 or \$70 per day depending on area.

7. Miscellaneous items up to \$50 should be reimbursed through an Expense Report. Items for more than \$50 require a purchase order.

### Copyright Notice To Users Of IRC

As many employees who use the Information Resource Center (IRC) already know, there are copyright laws which protect the rights of the software owner for the software and documentation that is available in the IRC. Making copies of the software or documentation would be a violation of these laws and, in the case of third-party software, possibly a breach of the agreements Data General has with the owners of such software and documentation.

As a result, it is strictly against IRC policy for any employees who use the of IRC to reproduce any software, documentation or any portion of that software or documentation. The IRC policy regarding software and documentation provides that:

#### Employees **MAY**:

- use any of the software loaded on the hard disk drives in the IRC;
- use any of the software and documentation available through the IRC;
- request to borrow software and documentation for home use pursuant to the IRC's Loaner System; and
- order your own copy of the software and documentation.

#### Employees **MAY NOT**:

- make copies of the software, documentation or any portion of that software or documentation without the express prior permission of an IRC staff member (note: permission is granted in very limited instances);
- distribute the software, documentation or any portion of it to others;

### Travel And Expense Policy Revised

Data General's North American Business Travel and Expense policy has been revised effective Monday, March 28. Copies of the policy are being printed and will be available in booklet form late next week at Travel and Expense offices. Copies will also be sent to each field office.

Highlights of the revised policy include:

1. A 22.5-cent per mile reimbursement rate for occasional drivers (non-car plan).
2. Increased daily advances of \$125 and \$175 based on area.
3. Increased daily meal maximums with a requirement that all required receipts be credit card or pre-printed restaurant receipts. Guest check stubs alone are not acceptable.
4. TAR and exception approvals are consistent at the regional director level in the field, plant manager, or director level at other locations.
5. All hotel, travel and car rental reservations must be made through Corporate Travel. A corporate travel itinerary with the expense report is justification for all rates.

- install the software on machines other than those authorized by the IRC;
- alter, modify or adapt, in any way, the software or documentation; and
- authorize others to use or perform any other activity relating to the software, documentation or any portion of that software or documentation.

The IRC provides its resources and services as a convenience to all Data General employees. Any violation by an employee of the copyright laws or of Data General's obligations to third parties may jeopardize Data General's license agreements with third parties, subject you (or possibly Data General) to potential liability, and/or necessitate further restrictions on your use of the software and documentation available through the IRC.

## CEO Travel Reservations Are Now Available

Employees within the Corporate Travel Services now can provide you with a trouble-free way to make business travel arrangements. Rather than pick up the telephone for your next travel reservation, send a request to the Corporate Travel Reservations office via CEO.

Corporate Travel Reservation employees check CEO business travel requests every 10 to 15 minutes and respond to urgent travel requests (for example, travel to take place within two days) in less than two hours. Less-urgent travel requests are answered within 24 hours.

The group has created a simple fill-in-the-blank CEO travel form that employees can file and copy each time they want to request travel services. To receive a CEO travel request form, send a message to **ADM Travel** at host system **IMG006**.

Please ensure your correct CEO mail address is indicated on your form request. CEO travel reservation requests can be mailed from any Data General location. CEO reservation services are available from 8:30 a.m. to 9:00 p.m. Eastern Standard Time.

## Tuition Reimbursement Tax Reminder

Data General has begun withholding federal, state and FICA tax from Educational Assistance reimbursements determined to be taxable under the law. A Determination of Tax Status form is now required of all employees requesting initial approval for a course and those already enrolled at the time they request reimbursement.

Generally, courses are **TAXABLE** when required to meet the minimum requirements for the current job or

are part of a program that will qualify the individual for a new trade, profession or job.

Courses "required to meet the minimum requirements" would seldom apply to persons newly hired at Data General but may apply to current employees promoted into positions with a career plan to complete certain educational requirements.

A "program of study that will qualify for a new trade, profession or job" can be something very specific such as a program to become a lawyer or less specific such as a bachelor's degree in a particular field. Most bachelor degree programs qualify the individual for a new profession.

The reimbursement is **NON-TAXABLE** if the educational program or course is solely for the purpose of maintaining or improving skills of the individual required in his or her current job or in meeting the express requirements the company or law imposes as a condition to retain the individual's salary, status or job such as an engineering license or nursing certification.

## Westboro

### *Pizzeria Prices To Increase*

Prices in the pizzeria in Building 14B in Westboro will increase as of Monday, March 28. Since the last price increase nearly three years ago, the rising cost of labor and food have made it necessary to increase the price of food items. All menu items will be affected.

### *Smoking Policy Reminder*

For the health, safety, and comfort of employees and visitors, smoking is not allowed in certain designated areas of the Westboro facility. These areas include lobbies, hallways, restrooms, elevators/stairwells, health facilities, food preparation areas and serving lines, designated portions of dining areas, and other areas as specified by the Smoking Regulations Policy.

Although employee response to the new policy has been excellent, there is still room for improvement. The success of Data General's smoking policy is attributed to the cooperation of all employees - smokers and non-smokers. The continued cooperation of everyone in observing designated smoking - no-smoking areas is appreciated and essential for the benefit of all Data General employees and visitors.

*Mini News* is published weekly for the employees of Data General-Westboro. Material may be submitted for publication to Mary Anne Been at extension 4705 or MS A235. Data General - An Equal Opportunity Employer.

## Corporate Treasury Holds First Banking Meeting

*Ray Fortune, senior vice president for Worldwide Sales, addresses a group of bankers, VARs and employees within Corporate Treasury during the recent Corporate Bank meeting held in the Executive Briefing Center.*

*A bank representative speaks with other bankers about Data General's financial applications.*

More than 50 bankers, representing 30 financial institutions, gathered during the first Corporate Banking meeting held last month in the Executive Briefing Center to look at Data General's financial and corporate strategies.

According to **Ellen Richstone**, acting treasurer, the intent of the meeting was to provide a different approach to banking relationships.

"During the meeting, we had a chance to present our long-term financial strategy, as well as our corporate strategy," Ellen says. "Our objective was to provide the entire Data General story, because these bankers, and the institutions they represent, are part of the Data General team."

Many of these bankers, Ellen points out, are Data General customers. The rest are potential customers. "We showcased our products at this meeting to give the bankers an opportunity to have a hands-on look at our financial computing applications. We wanted to show them what they are financing.

"Since the meeting, we have received tremendous response from many participants," she continues. "The

*Ward MacKenzie, vice president of Corporate Marketing, delivers a marketing overview to meeting participants in the Executive Briefing Center.*

*A representative of a Data General VAR meets with bankers before dinner at the recent banking meeting.*

bankers were impressed with the company's story, as well as with the Executive Briefing Center. The event provided them with a good sense of all aspects of Data General."

To help present the Data General "picture," several executives and managers participated in presentations. **Mike Evans**, vice president and chief financial officer, opened the meeting with an overview of Data General's overall business operations. He served as the host for the event. Mike and Ellen then gave participants a review of the company's financial operations. **Ward MacKenzie**, vice president of Corporate Marketing, and **Ray Fortune**, senior vice president of Worldwide Sales, followed with a Sales and Marketing overview, which included a question and answer session.

The presentations were far from over. **Colin Crook**, senior vice president of the Communications Systems Group, delivered a presentation on the company's communications strategy, and discussed the company's business relationship with Nippon Telegraph and Telephone. The Banking Industry Marketing group, and Manager **Jim Ogorchock**, then gave a demonstration of Data General products geared for banking applications.

The meeting ended as **Ron Skates**, senior vice president of Finance and Administration, delivered a keynote address at the dinner held for participants.

## People

### In IMG

**Peggy Kastner** has joined the Manufacturing, Field Service Development Division as an associate programmer/analyst, reporting to Section Manager Ray Charette. She will develop and support resource planning and tracking competency center applications. A recent graduate, Peggy holds a bachelor's degree in computer science from the University of Vermont.

## Training

The following courses are offered by Educational Services for employees who wish to enhance their skills with Data General systems and software.

- **System Troubleshooting for the Hardware Specialist (H210)** - This comprehensive course provides computer maintenance technicians with the knowledge and skills necessary to perform problem determination and troubleshooting on a systems level. Three major Data General operating systems (RDOS, AOS and AOS/VS) are used to provide a real-world systems troubleshooting environment. This 13-day course begins Tuesday, April 5.
- **CEO 3.0 User (Including CEO Word Processing) (OA163E)** - Employees will become familiar with the basics of CEO, including basic and advanced functions of word processing, features of electronic mail and calendar, and how to use the CEO merge function in this course. This four-day class begins Monday, April 11.
- **ECLIPSE/MV Family Assembly Language Programming (S105VS)** - This course teaches participants how to write, assemble, execute and debug programs using the Data General ECLIPSE/MV Family assembly language and utilities. This five-day class begins Monday, April 18.
- **PRESENT through CLI (S142)** - This class teaches employees how to create and use queries through CLI that select information from data sources, and how to format this information into reports and charts. This two-day class begins Monday, April 18.
- **Business Analysis and Requirements Definition (BARD)** - BARD is a methodology to understand, document, communicate and analyze business requirements. BARD's primary goal is to improve communication between users and analysts. The result is an improvement in user involvement, satisfaction, and quality of solutions to business problems. This five-day course begins Monday, May 9.

Prior approval of your supervisor is required for course registration. Please call (tie line) 221-1647 to enroll in these classes or for additional information.

### **Introductory WordPerfect Training On AOS/VS Available**

From Wednesday, April 27 to Friday, April 29, Educational Technologies will conduct an alpha test of a new introduction to WordPerfect/VS computer-based training course. Employees may participate in this test and receive training if you:

- need to learn this software;
- meet the prerequisites; and,
- are available on these dates.

Please contact Lillian Cochran at (tie line) 221-1548 or via CEO at host system ZETA as soon as possible for an opportunity to participate in the alpha test.

### **MIS Training Offered**

Southboro MIS User Services will offer a Data Tables training session on Wednesday, March 30, from 9:00 a.m. to 12:00 p.m. The class will be held in the MIS Training Room in Southboro. For more information, or to enroll, contact Sandy Hudson via CEO at host system SOBO02, or call (tie line) 220-7467.

## Activities

### **Calling All Frisbee Fanatics**

Have you developed an inexplicable hunger for plastic this spring? Satisfy it by discovering the thrilling game of Ultimate Frisbee. Registration for the 1988 DraGon Disk Ultimate Frisbee team will take place in the cafeteria annex between noon and 1:00 p.m. on Monday, April 4. This team represents Data General in the 28-team Boston-area Corporate Ultimate Frisbee League. DraGon Disk has been competitive with appearances in the finals and semi-finals over the last three years. Team members will teach anyone interested, young or old, how to play Ultimate Frisbee. All interested employees are welcome.

Ultimate Frisbee is a co-ed sport played on a 70-yard by 40-yard field with opposing end zones. There are seven players on each side, whose object is to pass the frisbee to a teammate in the end zone of the opponent. There is one game and one practice weekly throughout the summer.

For further information, contact Greg Carter via CEO at host system MSIS01, or mail your name or questions to Ultimate Frisbee at Mail Stop E-111 in Westboro. A team spokesperson will get back to you.

### **Data General Caribbean Cruise Update**

The response has been overwhelming to the Data General Activities Committee's seven-day Caribbean cruise aboard Royal Caribbean's new "Sovereign Of The Seas" taking place October 15 through October 22. Many of the various cabin classes have been sold

out. The Activities Committee has been able to secure a limited number of "C" class cabins for this event for \$1240 per person. The "C" class represents an outside stateroom with two lower berths. The Committee has also started a waiting list for the other classes of cabins ("G" class for \$1057 per person and "F" class for \$1116 per person) in the event that any become available. A \$200 deposit is required to reserve a spot on this trip. Make checks payable to Crimson Travel and send requests to Peter Faford at Mail Stop D-232 in Westboro.

As an extra option, Crimson is offering a day-early departure for an additional \$30 per person. This would cover the overnight accommodations at one of Miami's high-rise hotels.

For additional information or bookings, contact Peter via CEO at host system WEBO71 or at extension 6776 in Westboro.

### **"Lucky 13 II" Spring Dasher Races Set for May 13**

The first Dasher road race was held six and a half years ago to commemorate Data General's 13th birthday. Since then, Data General employees have enjoyed participating in 13 Dasher events. This year, to recognize the start of the next 13 races, the Dasher races will be held on Friday, May 13.

As before, there will be 3-mile and 6.2-mile foot races and a 15.5-mile bicycle race. The biathlon, combining the 15.5-mile bicycle race and the 3-mile foot race will not be held until the fall Dasher races. Bike race participants are required to wear hard-shell helmets.

Watch for registration details in upcoming issues of the *Mini News*.

Volunteer help is needed for planning and race day positions. If you would like to help out, contact the Dasher Road Race Committee at Mail Stop E-111 in Westboro.

The Dasher races are sponsored by the Data General Employee Activities Committee solely for Data General employees.

## **Data General Sales Team Heads To St. Thomas**

Want to know what Data General's Sales representatives do to get out of the cold? They head to St. Thomas for a few days of warm sunshine.

The best of Data General's Sales representatives will attend the 16th Million Dollar Club in St. Thomas next week for three days of meetings and workshops.

More than 300 employees will be honored for their extraordinary sales efforts during the past year.

The Club provides members with the information about Data General product and business strategies which will help them to successfully continue selling

Data General computers. President Ed de Castro and other executives will be on hand to congratulate the winning Sales representatives and share in their celebration.

As if the tropical climate were not enough, this year the Million Dollar Sales representatives will have a chance to meet with Dennis Conner, skipper of *Stars And Stripes '87*, winner of the America's Cup yachting classic. Dennis will address the employees on what it takes to be the best, something with which these Sales representatives are very familiar.

Members of the 1988 Million Dollar Club are:
