News For The Employees of Data General

March 8, 1985

Sarkissian Named Sunnyvale Division Vice President

Vahe Sarkissian has joined Data General as vice president and general manager of the Sunnyvale Division.

Vahe comes to Data General after more than 12 years at Advanced Micro Devices in Sunnyvale. He was most recently managing director of advanced products and before that managing director for MOS component research. While there, he was involved in the development of local area network (LAN) chips, a 2400 baud modem, panel processors and disk controllers.

Prior to Advanced Micro Devices, Vahe was with Fairchild Semiconductor, National Semiconductor, Signetics Corporation and Ampex Corporation.

Vahe holds an MS in electrical engineering from the University of Santa Clara and a BS in electrical engineering from Northrup University.

of competitors had earned their first validation," says Larry Holswade, vice president of the Federal Systems Division. "We have a track record in this market and we're committed to it. Today's announcement demonstrates our intention to be a major supplier, offering industry leading systems and software at competitive prices."

Data General also introduced the availability of ADE software on its 32-bit cluster and distributed workstation systems, the ECLIPSE MV/4000 DC, and the Distributed Systems DS/4200 and DS/4000. The price for an initial license is \$7,000. Universities can purchase ADE software for \$5,000.

New pricing is effective immediately.

ADE is a trademark of Rolm Corporation

Ada is a registered trademark of the U.S. Government

Franklin Receives 32-Bit System

An ECLIPSE MV/4000 computer, valued at more than \$123,000 has been donated by Data General to the Town of Franklin school system.

Among its many applications, the computer will be used by high school students enrolled in word processing courses. The students will learn word processing skills with the help of Data General's CEO Comprehensive Electronic Office office automation software. In addition, they will receive PASCAL programming instruction on the system.

Data General Reprices Licensing For Ada Products

Data General has announced price reductions of nearly 70 percent for the Ada Development Environment (ADE) software on its 32-bit computer systems. The company also announced that ADE software is now supported on its workcluster systems, and that it is making ADE licenses available to universities at a reduced price.

The price for an initial ADE license on ECLIPSE MV/Family systems is \$28,000. It includes the Ada compiler and a broad array of development tools.

"The Department of Defense had awarded Data General its second Ada validation before compilers

Technical Symposium To Be Held In April

The third symposium on "Operational and Technical Excellence in Manufacturing" is scheduled to be held Tuesday, April 23 and Wednesday, April 24 at Data General-Woodstock.

According to Tracey Zellmann, director of Advanced Manufacturing Engineering and Technology, more than 60 Abstracts have been submitted in

response to a 'call for papers' which came following last year's successful symposium.

Manufacturing employees were invited to submit an original and creative idea that makes or has the potential to make a significant contribution to Data General's Manufacturing operations. Submitted in abstract form, the ideas are followed up by the actual papers. The deadline for receipt of the papers is Friday, March 29.

"The symposium offers employees a unique opportunity to share innovating ideas and activities," says Tracey Zellmann. "It also is a means of recognizing those individuals for their efforts."

All of the papers submitted will be presented to peer groups on the first day of the symposium. Dave Chapman, senior vice president of Manufacturing, along with Manufacturing vice presidents and directors will participate in the evaluations. Finalists will be chosen to present their papers to all participants the following day. Prizes will be awarded to the top papers. The top papers will then be presented at the Manufacturing Management Conference in May.

"Maintainability" Key To Seminar In Woodstock

Field Engineering is sponsoring a one-day seminar on Reliability/Maintainability Engineering on Friday, March 29, at Data General - Woodstock.

The seminar "Maintainability, Key to Availability" is open to any interested employee, particularly those employees involved with Design and Development.

The seminar will be led by Reliability and Maintainability experts, Dr. Dibitri Kececioglu and Igor Bazovsky.

Dr. Kececioglu is with the Aerospace Mechanical Engineering Department at the University of Arizona. He is a registered professional quality engineer, and is the recipient of numerous engineering and education awards.

Dr. Bazovsky has been working in Assurance Sciences since 1957. He is the author of "Reliability Theory and Practice" and co-authored a test on "Maintainability Engineering Theory and Practice," published by the U.S. Army Material Command. He is a graduate of the German Technical University in Prague.

Topics to be covered include:

- Availability of Equipment
- Data conclusion, reduction, acquisition
- System level strategy
- Methods for testing
- Need for modularization
- Fault isolation, detection

• Military Standard 471

The seminar is the sixth in Field Engineering's "Technical Meeting Series," which provides continuing education to employees so that they may keep Data General products and services at the forefront of technology.

Sign-ups will be accepted until March 25. A manager's approval is necessary and \$150 per employee will be charged back to the employees's department. For reservations, contact Cheryl Stott, Westboro extension 3871. Seminar chairmen are Ron LaPointe and Tom Casey.

Westboro

People

In Manufacturing...

Jack Smith has been named manager, Manufacturing Management and Organizational Development (M.O.D.), responsible for worldwide implementation of the Manufacturing M.O.D. strategy. He reports to Guy Carter, director of Manufacturing Human Resources.

Since May 1983, while on executive rotation assignment from Manufacturing to Human Resources, Jack has directed several Human Resources programs including three major M.O.D. efforts within Manufacturing. He developed a career planning process which included the creation of a Manufacturing Career Planning catalog and training programs for employees and managers.

Jack also played a lead role in implementing the People Management System, including the Performance Management Workshop (PMW), throughout Manufacturing. Additionally, he has conducted Management Training/Leadership Development programs.

Manufacturing M.O.D. includes Northeast, Southern and Far East operations. Jack will be working closely with the managers of each of these operations, as well as line management and all of Human Resources in implementing the M.O.D. strategy.

Jack has nearly 15 years of management experience. He joined Data General in 1980 as manager, Corporate Sales Administration. He formerly held similar posts at Memorex and a Boston-based subsidiary of Gulf and Western.

Jack has a BS in psychology from the University of Oklahoma and completed the American Electronics Association certification program in personnel management.

Robert Schwartz has joined Advanced Manufacturing Engineering and Technology as a senior engineer, responsible for applications development. He

reports to John Sarmanian, manager of Manufacturing Information Systems.

Before Data General Bob was a consultant at Network Solutions, Inc. and before that with Bankcard of Rhode Island.

Bob earned a BS in electrical engineering at Pratt Institute in Brooklyn, New York.

Cynthia Staszko has joined Corporate Industrial Engineering as a senior product cost analyst, reporting to Section Manager Richard Dustin. She is the Corporate Manufacturing user representative and liaison to Manufacturing Information Systems for product cost.

Prior to joining Data General, Cynthia was with Digital Equipment Corporation and before that, Keane, Inc. and First National Bank of Boston.

Cynthia holds an MBA from Babson College and a BA from Boston College.

Principal Software Engineer **Fred Kier** has joined Software Systems, reporting to Joe Cox, acting manager of Design Assurance Engineering. Fred supports testing on Advanced Operating System (AOS) and AOS/Virtual Storage.

With Data General for seven years, Fred was most recently a principal Software Support engineer in Field Engineering.

In Customer Service...

Customer Service welcomes **John Jones**, manager of Systems Engineering (SE) Consulting Services, reporting to Vice President Michael Schneider. John is responsible for developing and managing consulting services for North American Systems Engineering.

With Data General since 1977, John was most recently a Major Accounts Sales representative in Area 1, Region 5. Before that he was a branch manager, Sales representative and systems engineer. Prior to joining Data General, John was a systems programming supervisor for GTE Information Systems.

John earned a BS from Rutgers University.

In FE Product Management...

Product Managers **Jim Hurley** and **Barbara Finer** have joined Field Engineering (FE) Product Management, reporting to Special Systems Manager Paul Marcucci.

Jim handles applications of the DATA GENERAL/One system within Field Engineering. Prior to joining Data General, Paul was a scientific systems analyst with Magnetic Corporation of America and before that he was with Instrumentation Laboratories and Hewlett Packard.

Jim earned a BS in electrical engineering at Northeastern University and a BA from Boston University.

Barbara manages the remote assistance project within Field Engineering. Before joining Data General

Barbara was with CDA Incorporated, and prior to that, Digital Equipment Corporation.

Barbara holds a BS in mathematics and computer science from Northeastern University.

Ken Perch has joined FE Product Management, reporting to Craig Pierce, manager of CPU Systems. Ken is a product manager responsible for developing strategies in support of assigned CPU products in the field.

Before joining Data General, Ken was with Honeywell Informations Systems, and before that Micro-Automation Computing, Limited; Analog and Digital Systems.

Ken earned a BS in marketing from Skidmore College and is enrolled in a master's degree program at Northeastern University.

Thomas Clancy is an associate product manager within Peripheral Systems Product Management, reporting to Manager Paul Clifford. He oversees the development of worldwide Product Support plans and associated strategies, including maintenance and training.

Tom was with Teradyne, Inc. in Boston for two years before coming to Data General.

He holds a BS in management from Southeastern Massachusetts University and is enrolled in an MBA program at Suffolk University.

In SDD...

Linda Johnston was recently promoted to Software Subscription Service (SSS) coordinator, reporting to LouAnn Julian, manager of Customer Service within Software Technical Services.

Linda coordinates and implements SSS worldwide, monitors the service, and updates customer software and documentation.

With Data General for almost nine years, Linda was most recently an associate Software Subscription Service coordinator.

In Corporate Purchasing...

Al Regina has been promoted to section manager of General Purchasing, reporting to Purchasing Manager Dean Sasek.

With Data General for four years, Al was most recently a purchasing specialist in Capital and Construction.

Al earned a law degree from Western New England College in Springfield and a BS in business administration from the University of Hartford.

In Finance...

Systems Programmer **Richard Lack** has joined Financial Systems, reporting to John Krawetz, manager of Financial Systems Operations and Technical Support. Dick supports the Financial Systems group and financial user community.

Before joining Data General, he was a systems programmer with New York Blue Cross-Medicare, and before that he was a systems administrator at Cornell University Division of Atmospheric Sciences.

Dick earned an MBA in management information systems at Syracuse University and a BS in management at Ithaca College in New York.

In Educational Services...

Instructor **Michelle Metzler** has joined Educational Services, responsible for training clients on the use of Data General commercial software. She reports to Jann Levesque, Software branch manager.

Michelle was with Computer Systems Institute as a programming instructor before joining Data General, and before that with the McKeesport School District.

Michelle earned a BS at Slippery Rock University in Pennsylvania and a certificate in computer programming at Computer Systems Institute.

In ISD...

Tom Del Prete is a senior Marketing specialist, reporting to Mike Parise, manager of Application Software Marketing. Tom interfaces with prospective Independent Software Vendors.

Before Data General he was with General Electric Information Services Company, and prior to that he spent 10 years with Dun and Bradstreet Computing Services.

Business Planning welcomes **Roy Sanford**, a business planning consultant, responsible for strategic and operational planning issues. He reports to Stefan Casemyr, acting director of Business Planning within the Information Systems Division.

Prior to joining Data General, Roy worked with Index Systems, Inc., a management consulting firm in Cambridge.

Roy received an MS in operations research, an MBA in finance from The Wharton School at the University of Pennsylvania, and a BS in math from Drexel University.

ASD Connects In Woodstock

Communications systems and power are an integral part of Data General's state-of-the-art computer solutions. Many of the people responsible for developing such advanced systems came together February 19 and 20 at Data General-Woodstock for the Advanced Systems Development (ASD) conference - "The Data General Connection."

Department managers spoke to the nearly 100 employees assembled from the Westboro and Research Triangle Park facilities about the advancements made in communications at Data

General and strategies for expanding the Data General connection.

Applications Services Manager Brian Schimpf explained the need to integrate Data General systems with other vendors, while providing superior functions and performance. This need, he said, which is essential in North American markets, is especially critical in European markets.

Advances in power supply systems were outlined by Trey Burns, manager of Power and Analog Systems. Trey displayed slides showing how systems' power supplies have drastically decreased in size while increasing in power.

At the close of the conference, ASD Director Don Tocher presented Robert Hutton, manager of Distributed Systems Development, with a replica of the banner that flew on Australia's winning entry in the 1983 America's Cup, which used Data General systems. The green banner showed a boxing kangaroo, symbolizing the code name for Data General's recently announced Intelligent LAN Controller (ILC).

Director's Awards Presented

In addition, Don presented Director's Awards to four employees who extended themselves beyond the norm to ensure the success of a product.

Honored were:

- Joseph Boykin, Senior Software Engineer
- Donna Fox, Software Engineer
- Ken Kossack, Section Manager
- Bahman Sharifipour, Power Supply Process and Support Manager

Tax Forms Available

The Data General Tax department has Personal Income Tax forms available to employees. The forms can be picked up in the Tax department, mail stop F231 or employees can contact Anne Harrington at extension 5668 from 8 to 8:30 a.m. and from 5 to 5:30 p.m.

Only Federal tax forms are available. Due to a limited number of forms, only one copy of each form requested will be supplied.

Mini News is published weekly for the employees of Data General-Westboro. Material may be submitted for publication to Joan Simoneau, extension 4711, MS A235. Data General - An Equal Opportunity Employer.

Reminder

Badge pictures are taken in Corporate Security (mail stop A212) Mondays from 9:30 to 11:30 a.m. Employees also are reminded that site Security (mail stop C111) relaminates badges Monday through Friday from 10 a.m. to 4 p.m.

Coming And Going...

To ensure strict property control and building security at all times, Corporate Security enforces the following hours at Data General-Westboro:

- The lobby in Building 14A is open 7:30 a.m. to 9 p.m. Monday through Friday and is closed weekends;
- The lobby in Building 14B is open 24 hours a day, seven days a week;
- All camera controlled booths (at West, North, Northeast and Northwest entrances) are available to employees Monday through Friday from 6 a.m. to 9 p.m. except the West booth in 14A which closes at midnight weeknights for exiting only. All are closed weekends.

Lose Something?

Have you ever lost a personal item and looked for it unsuccessfully? If this happens to you, try the Site Security department's "Lost and Found" drawer. Right now you can find articles of men's and women's clothing, jewelry, prescription eye glasses, keys of every description, and even calculators.

All property turned in to Security is held for 30 days, and if unclaimed, it is discarded.

Call Site Security at extension 6100 in Westboro or stop at the office, MS C111 (near the main cafeteria).

Training For Employees

Educational Services is offering the following courses to Data General employees. All courses will be held at the Education Center, 2400 Computer Drive. Supervisor's approval is required prior to registration.

For course or enrollment information call Central Registration and Information, extension 4079 or 4096 in Westboro.

Start Date	Course #	Course Title	
3 / 18	H100	Data General Computer Architecture	
	H236	6236 / 6237 Disc Field Maintenance	
	S219	AOS System Manager	
	S219 / VS	AOS / VS System Manager	
	S304	RDOS System Programming	
	SM416	Systems Performance: Practical Perspective	
3 / 21	S221	Managing CEO (Technical)	
3 / 25	H105	NOVA 3 Field Maintenance	
	H149	ECLIPSE MV / 4000 SC Field Maintenance	
	H402	Advanced Maintenance Technology Using AOS and AOS / VS	
	OA148	CEO Trainers Workshop	
	S101	Fundamentals of Assembly Language Programming	
	S209	AOS and AOS / VS User	
	S222	Managing CEO (Non-Technical)	
	S316	DG / DBMS Utilization and Design	
	S317	DG / SQL Utilization and Design	
	S401	RDOS Internal Structures	
	SM330	Database Design	
	4 / 1	H100	Data General Computer Architecture
		H203	Disc 10 MB (6045 Series)
		H305	Nova 3 Component Level
OA141		Getting Started with CEO Word Processing	
S105 / VS		ECLIPSE MV / Family Assembly Language Programming	
S113		Data General FORTRAN 77	
S302		TPMS System Utilization	
SH109		AOS Operator Training	
SM430		DG / SNA Application Design	
4 / 3		OA143	Introduction to CEO Mail & Calendar
4 / 4	OA142	Advanced CEO Word Processing Topics	
4 / 5	OA145	Getting Started with PRESENT	
	OA146	Getting Started with CEO Spreadsheet	
4 / 8	H101	Diagnostic Operating System User	
	H322	DESKTOP GENERATION Component Level	
	H401	Advanced Maintenance Technology Using RDOS	
	S140	Introduction to Data Communications	
	S142	PRESENT for Programmers	
	S200	RDOS User	
	S209	AOS and AOS / VS User	
	S309 / VS	AOS / VS System Programmer	
	SM333	Communications Hardware Architecture	
	SM431	XODIAC Internal Structures	
4 / 10	S220	XODIAC System Manager	

Benefits

Savings & Investment Plan Rollovers

The Savings & Investment Plan now permits the "rollover" of monies received as a distribution from qualified plans of a previous employer.

If you are a newly-hired employee, who will be receiving a lump sum payment from the pension, profit-sharing or other qualified plan of your previous employer, this new provision will be of interest to you.

Rolling your lump sum distribution into the Data General Savings & Investment Plan within 60 days of receiving it, will preserve its tax deferred status. The standard 90-day eligibility requirement for joining the Plan is waived for the purpose of depositing "rollover" funds. The monies will be accepted upon approval of the Rollover application. However, interest will not start accruing until the first of the month following the actual deposit.

For further information contact Barbara Wahl at extension 4562 in Westboro.

Activities

Polynesian Luau A Success

More than 500 Data General employees turned out at the New England Aquarium last Saturday to share in the tropical delights of a Polynesian Luau hosted by the Data General Activities Committee.

Attendees, outfitted in their best grass skirts and wildest shirts, witnessed a dolphin show and the ceremonial fish feeding by skilled divers. Later, they feasted on such polynesian treats as beef polynesian, sweet and sour meatballs, fried chicken and egg rolls followed by an evening of dancing to the sounds of the Bo-Winiker Orchestra.

Logo Contest Deadline Today

Today is the final day to submit entries in the logo contest being conducted by the Data General Activities Committee. Entries can be dropped off at MS B-111.

Flower Show Tickets Sold Out

Discount tickets to the annual flower show being held March 9 - 17 at the Bayside Exposition Center in Boston are sold out. Tickets can be purchased at the door for \$6 each.

Free Passes To New England Aquarium

Free admission passes to the New England Aquarium in Boston are available through the Data General Activities Committee. Send a self-addressed, stamped envelope to AQUARIUM, MS B-111. Please indicate number of passes needed (limit is 4 per employee).

Circus Comes To The Centrum

The Ringling Bros. Barnum and Bailey Circus is coming to the Worcester Centrum next month. The Data General Activities Committee has purchased discount tickets to the Saturday, April 27 performance at 11 a.m. Tickets are \$7.50 each. Send requests to CIRCUS MS D232, include a stamped, self-addressed envelope. Make checks payable to the Data General Activities Committee.

Discount Coupon Books Available

If you would like a copy of the spring edition of "The City" discount coupon book, send a self-addressed interoffice envelope to THE CITY MS B-111. The books are free.

Join The Data General Runners' Club

The Data General Runners' Club is off and running! The club is bringing together runners of all abilities to exchange information on training and racing, and organize corporate teams to compete in local races.

Whether you are an official veteran of Boston Marathons, a local 10K racer, or a 10-minute per mile jogger, the Runners' Club is seeking your involvement. The club's first meeting will be Wednesday, March 27 at 5 p.m. in the Cafeteria. If you

would like advance information about the club, write Running Club, F036.

Chess Tournament Update

Jack Young has won his third game in the Third Annual Chess Championship tournament currently underway. This win gives Jack a perfect score thus far in the five-round event.

Meanwhile, four other players have perfect scores after two games. They are Sri Vasudevan, Stu Schulman, Mark Stockley and John Borroughs. Round 4 will be held Thursday, March 14 in the Pizzeria. The tournament is scheduled to end Thursday, March 28.

Data General Wallyball League

Wallyball League standings for the 1984-85 season, weeks 1 to 16, are as follows:
