Mini News

News For The Employees of Data General

January 24, 1986

Data General Reports 1986 First Quarter Results

Data General has reported revenues for the first quarter, which ended December 28, 1985, of $293.7 million, compared with revenues of $333.7 million for the same quarter last year.

Earnings for the quarter were $1.1 million, or $.04 per share, compared with $23.0 million, or $.87 per share for the same period last year.

Operating income for the quarter was $4.3 million, or 1.5 percent of revenues, compared with $35.8 million, or 10.7 percent of revenues, for the same period last year.

During the quarter, the company renegotiated an existing long-term sales contract for equipment sold in prior quarters which resulted in a $3.5 million increase in equipment sales and income from operations, or $.06 net income per share, for the quarter.

Commenting on the results, President Ed de Castro says "Although our current results are compared to the strongest quarter in company history, I am particularly disappointed by the weakness in equipment revenue. Current quarter results reflect a continuing lack of demand in our business sector.

"Although encouraged by the initial reaction to our new products introduced in November, and by the external forecasts for returning economic vitality in the second half of the year, our general business outlook remains cautious."

Data General Contributes To Microelectronics Park

The Massachusetts Microelectronics Center, a $48 million education facility scheduled to open in Westboro in April, is getting a helping hand from Data General.

The company has donated to the center a pair of ECLIPSE MV/10000 computers, graphics terminals and associated software, valued at nearly $1.3 million.

The center will use the systems to provide advanced training and research opportunities in microelectronics and semiconductor technologies for undergraduate and graduate students at eight schools in Massachusetts, as well as scientists and engineers working in the state.

Labs at each participating school will be electronically-linked to the center so that students may have access to the hardware and software tools needed to support instructional programs in the design of very large scale integration (VLSI) circuits. Schools tied into the computer-aided design network are: Worcester Polytechnic Institute (WPI), the University of Lowell, the University of Massachusetts at Amherst, Tufts University, Boston University, Northeastern University, Southeastern Massachusetts University and Merrimack College.

One of the Data General 32-bit computers will be located at WPI to support VLSI design courses for computer science and electrical engineering students. At WPI, students will be able to design chips, analyze them, simulate test results, lay out their designs, check the layouts, and then electronically submit the appropriate manufacturing information to the center for fabrication.

The other ECLIPSE MV/Family system has been installed at the center in Westboro. It will be used to receive students' VLSI chip designs for fabrication. Chip fabrication initially will be conducted by outside vendors. Ultimately, chips will be built at the center's fabrication facility which is planned for 1987. After the chips are built, students will receive them in order to further analyze their designs.

The Data General computer also will support VLSI design courses offered during evening programs at the center.

According to Data General Donations Administrator Dave Dimmick of Public Affairs, the equipment will help to increase the quality of engineering education in the state. "Helping Massachusetts-based universities improve the quality of education in VLSI design will help to ensure a pool of qualified graduates for employment in the state. Other computer companies throughout the state have made similar contributions to the center."
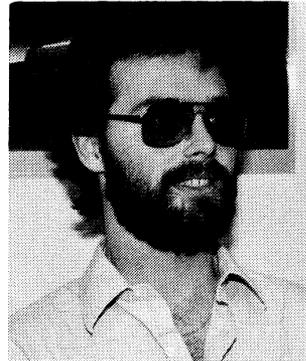

Finance Names New Director

Tom Herriford

Tom Herriford has been named director of Corporate Accounting and Reporting within the Finance division at Westboro. He reports to Al Getz, assistant corporate controller. In this new position, Tom oversees Corporate Accounting, Operational Accounting and Corporate Cost Accounting areas, as well as the General Ledger/Financial Reporting project.
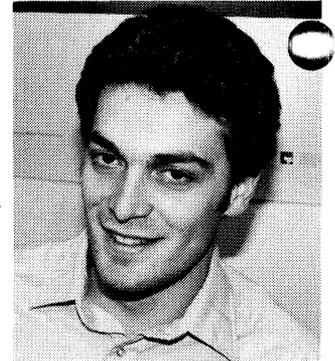

Tom joined Data General in December 1984 as Corporate Accounting manager. Prior to that, he was with Ryder Systems Inc. of Miami where he most recently was director of finance.

Tom is a certified public accountant. He holds an MBA in finance and a BS in business administration from Virginia Polytechnic Institute.

Construction Continues At Durham

Construction of a 300,000 square-foot Data General facility in Durham, New Hampshire, is continuing throughout the winter. The $31 million facility will house a product development center for Mass Storage Engineering, Manufacturing and office space. Shown above is the structural steel skeleton of the research and development portion of the new plant. Occupancy of the new site is scheduled for the summer.

Recognition For A Job Well Done

Steve Kohlami   Sam Nuwayser

Design Engineers **Steve Kohlami** and **Sam Nuwayser** of Mass Storage Engineering (MSE) have been commended for their efforts in the design of products within MSE, receiving Director Awards for their outstanding contributions.

According to MSE Director Joe Godbout, "In a high technology company like Data General, it is important to recognize employees for their personal achievements which directly contribute to the success of the business. Steve and Sam have exhibited exceptional initiative, team spirit and hard work in their efforts."

Steve made exemplary contributions to the group in his design of the Winchester disk controller board for the DASHER/One computer. Working with engineers at Austin and Nippon•Data General, Steve accomplished his goals in a timely manner by tackling various issues that arose throughout the project.

Sam has played a significant role in designing gate arrays for use in disk storage products. While he had sole responsibility for one product, Sam also assisted in several other gate array projects. To help ensure the products' quality design, Sam trained group members on the use of software simulation tools. These software programs allowed engineers to simulate and test the chip set design before releasing it to printed circuit board production at Portsmouth.

Through teamwork with their groups, both Steve and Sam met the challenges of a demanding schedule to ensure the success of the products.

Westboro Alarms Tested

The fire alarms and sprinkler systems in Buildings 14A and 14B at Data General-Westboro will be tested from 7:30 a.m. to 11:30 a.m. on Sunday, January 26.

Wide Range of Graphics Terminals Now Available

Data General and Raster Technologies, Inc., of North Billerica, Mass. have signed an Independent Hardware Vendor (IHV) agreement to coordinate sales of the companies' products, including Raster Technologies' Model One/10, One/75 and One/380 color graphics terminals and Data General's ECLIPSE MV/Family of 32-bit minicomputers.

The marketing agreement enables Data General to offer an extensive range of graphics terminals, from the low-end Raster Model One/10 to Data General's own stand-alone workstations, and up to Raster's host-based compute-intensive Model One/380 terminal for 3-D applications.

Raster's color graphics systems are employed by end users and original equipment manufacturers in computer-aided engineering, automotive, aerospace and geophysical applications. The Model One family of graphics systems stresses simple applications development and optimal interactive graphics performance.

Data General's IHV program provides customers with a convenient source of integrated, specialized third-party hardware for use with Data General computer systems. Through this program, Data General offers a wide range of product solutions from leading suppliers of computing equipment. The IHV program complements the company's Independent Software Vendor program, through which Data General computer users can obtain more than 600 third-party applications software packages for industrial, technical and scientific uses.

Computer-Based Training Testing

The Product Development group in Educational Services soon will begin testing four new computer-based training courses. Employees can receive computer-based training free-of-charge by volunteering to participate in the product testing.

Pending prior supervisory approval, volunteers must be available on the dates that the testing will be conducted and must meet the specific prerequisites for each course. In addition, during the training sessions, students will be asked to give feedback to Educational Technologies on the quality of the courses.

The following computer-based training courses will be tested on the dates listed below:

Course Title	Test Dates
Introduction to CLI	Thursday, January 30 and Friday, January 31
AOS/VS User	Monday, February 24 through Wednesday, February 26
SED Text Editor	Wednesday, February 26
CLI Macros	Monday, March 10 through Wednesday, March 12

To participate or for more information, contact Lillian Cochran at extension 4042 in Westboro, or through CEO at COCHRAN L:ZETA.

Educational Services
February Employee Training Schedule

The following courses will be conducted by Educational Services at the Education Center, 2400 Computer Drive in Westboro. To enroll in any course listed below, call Central Registration in Westboro at extension 4079. Supervisor's approval is required prior to registration.

CEO Courses

Date	Course Title	Course #	# of Days
2/10	Getting Started – CEO WP	OA141	2

People

In Manufacturing...

Frank Fisher joins the Manufacturing Technology Institute (MTI) as a principal course development specialist, reporting to Bill Mahoney, manager of MTI Education. In this position, Frank facilitates the design, development and implementation of technical seminars and professional education programs for Manufacturing employees.

With Data General since 1983, Frank most recently was a senior Management and Organizational Development (M.O.D.) specialist for Westboro Manufacturing. Prior to that, he was a senior training and development specialist in Corporate M.O.D.

Frank holds a BS in marketing and an MBA in management and organizational behavior from Suffolk University.

In North American Sales...

Geoffrey Roy comes to Data General as a National Accounts marketing consultant reporting to Frank Gallo, National Accounts director.

Before joining the company, Geoffrey worked at Burroughs, and Proctor and Gamble. He holds a BS in business administration from Providence College.

In Finance...

Bob Widman has been named manager of development projects, reporting to Dave Evans, controller of Technology and Development. In his new position, Bob is responsible for the financial coordination, planning, analysis and continuing financial support of new development projects within the Technology area.

Bob most recently served as manager of the Product Financial Analysis group, where he was responsible for the consolidation, verification and publication of the cost of Data General's products. Prior to this, he was a controller within the business divisions.

Before joining Data General, Bob held various financial positions at Digital Equipment Corporation and Advanced Micro Devices, Inc. He holds a BA and an MBA from Washington University.

Activities

Employees Will Whistle "Sweet Georgia Brown"

The Harlem Globetrotters basketball team bring their special version of hilarious basketball to the Worcester Centrum on Saturday, February 22, at 7:30 p m. Discount tickets for the event are $8.50 each. (Regular price is $10.50) To request tickets, send a self-addressed stamped envelope along with a check to GLOBETROTTERS, Mail Stop D232 in Westboro. Make check payable to the Data General Activities Committee.

St. Patrick's Day Weekend In NYC

The Data General Activities Committee is planning ^n overnight trip to the "Big Apple." Buses will ,part Westboro for New York City on Saturday, March 15, and return on Sunday, March 16. The trip includes round trip transportation via motor coach, hotel accommodations at the Haloran House (located next to the Rockefeller Center), baggage handling, and a Sunday matinee of a Broadway show titled "Mystery Of Edwin Druid."

Show Your Celtic Pride In The City Of Brotherly Love

Follow the Celtics to the city of brotherly love in a weekend trip sponsored by the Data General Activities Committee. The trip to Philadelphia, scheduled for Saturday, April 5 to Sunday, April 6, includes roundtrip transportation via motorcoach, overnight accommodations at the Bellevue Hotel, and dinner at the Bookbinders restaurant. Sunday's activities will consist of breakfast followed by a 1 p.m. Celtics versus the Philadelphia 76ers game. Employees will return home immediately after the game.

Price is $129 per person, based on double occupancy. Checks MUST be payable to Club Getaway Tours and are due by Friday, February 14. Send your requests to CELTICS at Mail Stop 6-5 in Southboro. Space is available on a first-come, st-served basis.

Dining Discount Cards Available

Entertainment '86 discount coupons books, featuring discounts on dining in many area restaurants, are now available in the Employee Activities office at Mail Stop C128 in Westboro. A wide variety of restaurants from fine dining to fast food is included in the book as well as a section for theatre and special events. Data General employees may obtain the book at a discounted price of $20, while the retail price is $25. Sample books for review are available in the Activities office.

Shape Up With Discounts To Area Health Clubs

Interested in joining a health club? The following clubs have made discounts on memberships available to Data General employees:

The Club - Total Fitness Center, Marlborough

• Facilities include: 16-station Nautilus circuit, free weights, cardio-vascular equipment, six aerobic classes daily, swim spa, hot tub, steam room, sauna, full locker room facilities and juice bar.
• Data General employees receive a 25-percent discount on all full and aerobic membership initiation fees. Receive a complimentary tanning session and a 10-percent discount on any group of sessions with any membership at The Club.
• For more information, call 460-0696 in Marlborough.

Westboro Plaza Fitness Club

The Fitness Club at the Westboro Plaza hotel, which is operated by the Worcester YMCA, is expanding its membership offerings to include pool and couples memberships.
• The center offers a 10-station Nautilus, lifecycles, rowing machines, heated indoor swimming pool, whirlpool, aerobics classes and locker facilities with sauna. Members receive an exercise evaluation upon joining and will be placed in a personal exercise program based on the evaluation and their personal goals.
• Data General employees receive a 15-percent discount on all memberships.

For more information, call 366-5511, extension 654 in Westboro.

Speak Up And Be Recognized!

The Data General Toastmasters Club meets every Wednesday at noon at Mail Stop E111, Conference Room 4, in Westboro. This week, Theresa Bresson and Philip Levy will present their first, ice-breaker speeches. Come cheer them on! All employees are welcome to attend. For more information, contact Loni Pecker at extension 5533 in Westboro.

For Those Attending The Austria Ski Trip...

The Data General Ski Club will sponsor an information session on the Austria trip on Thursday, January 27 at 4 p.m. in the Westboro cafeteria for those employees who are signed up to attend. At the meeting, there will be a tour representative available to answer questions. In addition, pictures and slides of the Alps will be shown.

Additional Ski Club Trips

The Data General Ski Club has made available additional day and overnight trips. All day trips include the following: round trip bus transportation, lift ticket, coffee and donuts in the morning, and wine and cheese on the return trip. Buses depart from Data General-Westboro. Space is limited, so reserve early.

• *February 8, Killington, Vermont* - $39.
• *February 23, Waterville Valley, New Hampshire* - $35.
• *March 16, Stratton, Vermont* - $39.
   Overnight trips include:
• *March 17 - 24, Whistler, British Columbia* - $707 for quad occupancy and $676 for maximum occupancy (6 per unit); $100 deposit immediately required.
• *February 14 - 17, Lake Placid, New York* - $169 quad, $179 triple and $198 double.
• *February 28 - March 2, Mt. Ascutney, Vermont* - $130 double occupancy.
• *March 21 - 23, Sugarbush, Vermont* - $142 double occupancy.
   Send a $50 deposit made payable to the Data General Ski Club to Mail Stop F211 in Westboro. Ask for your copy of the information package containing further details on each trip.
   Note: Due to cancellations, space is still available for the Ski Club's trip to Austria in March. Call extension 4988 in Westboro for more information.

INTRODUCING DATA GENERAL'S NEW GENERATION OF ADVANCED COMPUTER SOLUTIONS.

It's an entirely new generation of systems, servers and workstations. And it's a much wider range of cost-effective solutions. For business and industrial automation. Or any information management need.

Today, Data General is offering you unprecedented technological advancements to help you outdistance your competition.

Advanced price/performance

It begins with the new MV/20000.™ Five times as powerful as the original supermini, this compact system gives you mainframe computing power. At the price of a minicomputer.

This new standard of price/performance highlights every model of our new generation. Including our high-speed dual-processor supermini. The most powerful single-board supermini yet available. Our advanced DS/Family of engineering workstations. And the powerful MV/2000 DC™ departmental computer.

In fact, these breakthroughs give you a cost of ownership consistently below IBM® or Digital!™

Advancements for any application

Our new generation of technology has the flexibility and reliability to be applied in almost any industry. In any company. We offer a truly distributed operating system. A choice of UNIX™ implementations. And the ease of advanced windowing.

The new Technical Electronic Office™ adds new engineering productivity tools to our industry leading CEO® integrated business automation system. And now with a comprehensive choice of networking—IBM, LAN, PBX and more—you have all the connections you need to your existing systems.

Our new advancements in inter-system compatibility allow you to run diverse business and engineering applications. Simultaneously.
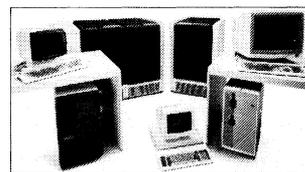

Keeping you ahead

Each of Data General's breakthroughs is compatible with all that has come before it. Which is part of our commitment to make sure your initial investment is always protected.

Plus our priority towards service and support keeps it running smoothly. Along with an investment in research and design that consistently exceeds the industry average.

Call 1-800-DATAGEN

These advancements will propel you into the future. And make your competition but a distant memory. For a sales call or literature explaining our new generation of computer solutions, call 1-800-DATAGEN, or write Data General, 4400 Computer Drive, MS C-228, Westboro, MA 01580.
