Data General Employees In The Community

Long-Term Employee Finds Satisfaction In Helping Others

Nick Baker, (right) Manufacturing Engineering manager at Southboro, speaks with Paul Venti, Reliability engineer, about testing Data General products. A long-term Data General employee, Nick devotes much of his "free time" to community service in nearby Shrewsbury.

Nick Baker has made a successful career of helping others inside and outside of Data General.

Since joining the company 11 years ago as a Software Reproduction supervisor at Southboro, he has seen the company grow from a small "shortsleeves" business environment of 3500 employees to a \$1.24 billion company of approximately 16,000 employees worldwide. And with that growth, Nick has progressed in his career, now managing the 75-member Manufacturing Engineering department.

As Nick's responsibilities at work grew throughout the years, so too did his dedication to civic responsibility and community service. He has been involved in many civic activities in nearby Shrewsbury, working as a special police officer, Town Meeting mem-

ber, Civil Defense deputy director, Explorer Scouts leader and officer of the Rotary Club.

"Enthusiasm for Shrewsbury," Nick recalls, "combined with a personal interest in law enforcement, first led me to volunteer as a special police officer in Shrewsbury. Soon after, a network of contacts encouraged me to become further involved in public service."

This year, Nick was elected president of the Shrewsbury Rotary Club. In his eighth year as a member, he now presides over a group of 45 business leaders from various industries in the local area. Through fund-raising efforts, the group supports Shrewsbury social service organizations, "especially youth and families who are in need," says Nick.

For Nick, another vehicle for "reaching out and making an impact on the lives of others" is participation in the Explorer Scouts. He is the leader of the high-school-age group, which gives students an opportunity to experience a career field in which they may later pursue.

For instance, Nick's post has worked in the world of law enforcement. "Since exploring the law enforcement field, some kids have gone on to become police officers. While others have decided that 'Starsky and Hutch' is a good television program, but that kind of occupation is not for them," explains Nick. "In this way, the group reaches out to youth who may need some direction."

In addition to community work, Nick also finds time to serve as a liaison between Data General and his alma mater, Worcester Polytechnic Institute. He helps to encourage the brightest young graduates to join the company.

All of this activity, says Nick, has had a "positive effect" on his career. He finds that, "volunteer organizations are the true test of management skills."

"As a leader of a group, I must learn to motivate people without the enticement of salary and other reinforcements," Nick comments. "Community organizations let me practice those skills."

According to Nick, juggling the demands of a family, career and volunteer work takes some organi-

zational skill, as well. "You have to set priorities and you cannot be afraid to say 'no' to some events, if they infringe on your private time. For example, Sundays are strictly family days for me. Whatever we do is decided between me and my family."

Criss Appointed RTP Lab Director

Ron Criss has been named director of the Research Triangle Park (RTP) Laboratory. He reports to Gerry Clancy, director of Systems Software Development within the Systems Development Division (SDD).

Ron is responsible for bringing together the critical pieces of the development effort within RTP that are needed to maintain an open architecture - one that integrates industry-standard and proprietary software into a coherent systems context.

Ron most recently was manager of Languages and Data Services at RTP. He joined Data General in Westboro in 1984 as manager of the SDD Languages group. Before coming to Data General, he was with Digital Equipment for seven years where he directed the development of Digital Equipment's DECSYSTEM 10/20 software.

Reporting to Ron are: Lee Schiller, manager of UNIX Development; Roland Archer, manager of Microsystems and Data Management; Ralph Jordan, manager of Proprietary Languages; Bob Kirkpatrick, manager of Development Environments; and Steve Dupree, manager of Operations and Facilities.

Denver Chamber Of Commerce Spotlights Data General

Data General was the "focus" at the annual meeting of the Denver Chamber of Commerce, which had a record attendance of 1200 Denver business representatives. The company was featured in a video tape of new companies that recently have joined the Denver chamber. The tape will be used in future chamber efforts directed at attracting more companies to the area.

"Data General joined the Denver Chamber of Commerce when what was then the Technical Products Division moved from Westboro to Denver in April of 1985," says Sherm Rutherford, Applications Business Unit director for the Industry Marketing Division. "The chamber assisted in relocation and in helping the company establish business relationships in Colorado."

Data General was one of six Denver companies, and the only computer manufacturer, featured in the tape. Another company portrayed was Critical Care Inc., a traveling-nurse service that contracts with

hospitals. Shown was Critical Care employees using Data General computer equipment to carry out their duties. Another segment of the tape pictured a chamber member working at a Data General DASHER terminal.

People

In Corporate Traffic...

Don Logan has been promoted to Traffic administrator, reporting to Corporate Traffic Manager Bob Proulx. In this position, Don is involved with employee relocations.

With Data General since 1978, Don had worked as a senior electrical mechanical technician at Southboro.

In Systems Engineering...

Dan Fennelly has been promoted to Regional Systems Engineering manager for Region 1 of Area 1, based at Wellesley. He reports to Area Systems Engineering Manager Jim Hope.

Dan has been with Data General since 1978, most recently as a Branch Systems Engineering manager. In this position, he was named Area 1 Branch Manager of the Quarter for Quarter 2 of fiscal year 1986. Before that, Dan was a Regional and Branch systems engineer. He graduated from Framingham State College with a BS in computer science.

CPD Employee Honored For Accomplishments

Pearl Finn, clerk/auditor, recently was named Employee of the Quarter for Quarter 2 within the Continuing Products Division (CPD) Materials organization. Pearl was honored at a luncheon, held in recognition of the entire CPD Warehouse group.

CPD Warehouse employees are responsible for receiving, storing and shipping DG/DIRECT products, which include supplies, accessories and cables. The warehouse is on Flanders Road in Westboro.

Michael Schneider, vice president of the Customer Services Division, was on hand to congratulate Pearl for her achievements. Those include a major contribution to accurate and timely weekly cycle count and to the outstanding results of a recent physical ventory at the Warehouse.

In addition, Michael thanked the entire Warehouse group for its part in meeting organizational goals. "Each of you here today have contributed significant-

ly to making our goal of 48-hour shipment of orders a reality. DG/DIRECT is now shipping virtually all orders within 48 hours of a customers' phone order. Our responsiveness to customer needs will reinforce DG/DIRECT's position as the best source for supplies and accessories for Data General's installed customer base," Michael stated.

Pearl Finn is the Continuing Products Division's (CPD) Employee of the Quarter for Quarter 2 of fiscal year 1986. Presenting her with an award are: (left to right) Howard Berg, CPD director; Michael Schneider, vice president of the Customer Services Division; Andy Curll, System Documentation coordinator, and Jeff Gardner, CPD Materials manager.

Telephone Credit Cards Handled At Manchester

Corporate Travel and Expense at Manchester now is responsible for the administration of employee telephone credit cards. Questions may be directed to Dottie Hamill at 223-2044 in Manchester, Mail Code 1E.

Training

Managers Enhance Skills In Team Effectiveness

Last month, 15 senior managers from each of Data General's major divisions participated in a new course sponsored by Corporate Management and Organizational Development (M.O.D.). The "Team Effectiveness Program" presented a "task-oriented" approach which gave senior managers an opportunity to enhance their skills in team management.

The three-day program included lectures, discussions and exercises on team issues and discovering methods for increasing team effectiveness. On the final day of the program, participants conducted simulated team-development sessions which dealt with such topics as establishing a mission, managing meetings, conflict management and problem-solving.

The course was co-taught by Bailey Allard, M.O.D. manager for the North American Sales Division, along with an outside consultant.

The "Team Effectiveness Program," designed specifically for senior managers, is one of several new courses being offered by Corporate M.O.D.. Other programs include week-long seminars called "Managing Innovation," "Advanced Management," and a three-day management simulation course titled, "Strategic Management Workshop."

To learn more about the "Team Effectiveness Program," contact Donna Wnuck, program manager, at extension 4569 in Westboro.

Travel Tip

Employees making business travel arrangements through Corporate Travel must be ready to indicate their cost center when doing so. In addition, the employee's badge number and Trip Authorization Request (TAR) form number also are needed.

A credit card number with expiration date may also be required if the employees wish to guarantee their hotel room for late arrival. For more information, Corporate Travel may be contacted at 232-1000 in Westboro or through CEO, ADM TRAVEL:ISIS.

Educational Services Employee Training Schedule

The following courses will be conducted by Educational Services at the Education Center, 2400 Computer Drive in Westboro. To enroll in any course listed below, call Central Registration at 221-1646. Supervisor's approval is required prior to registration.

Safety Awareness Continues In The Summer

Safety awareness is a year-round job. Just because it is vacation time, you should not relax on safety. Here are a few hints for a safe summer.

- Be sure to fasten your seat belt before you leave for your destination.
- Drive defensively throughout your vacation, and take time out for occasional rest stops when you go on a trip.
- Summertime is fun-time. Watch out for children playing near the street.
- Sun is fun, if not overdone. Tan gradually. And, when the days are hot, drink plenty of water and do not overeat.
- Have a safe and enjoyable summer by making safety a regular habit.

Alarms Tested This Weekend

This Sunday, the fire alarms and sprinkler systems will be tested in Buildings 14A and 14B at Data General-Westboro from 7:30 a.m. to 11:30 a.m.

Address Changes For Field Offices

Take note of the new addresses for the following Data General Sales and Field Engineering offices in Indianapolis, Indiana and Roanoke, Virginia.

**Data General Corporation
2611 Waterfront Parkway
East Suite 399
Indianapolis, IN 46214**

**Data General Corporation
4204 Cypress Park Drive
Roanoke, VA 24014**

Activities

Bus Transportation Arranged For Great Woods Outing On August 17

The Data General Activities Committee has made special arrangements to charter a bus for the Concert at the Great Woods outing, scheduled for Sunday, August 17 at 7:30 p.m.

Bus tickets are \$6 each. They may be ordered by sending a check made payable to the Data General Activities Committee along with a stamped, self-addressed envelope to: CONCERT COACH, Mail Stop 4-23 in Southboro.

Additional Cabins Secured For Caribbean Cruise

Due to an overwhelming response for the fall cruise to the Caribbean, the Data General Activities Committee has reserved an additional 15 cabins for those employees interested in making the trip.

The Song of America ocean liner will take voyagers throughout the eastern Caribbean during a trip planned for Sunday, October 5, through Sunday, October 12. Departing from Miami, the cruise will sail through Nassau in the Bahamas, San Juan, Puerto Rico, and St. Thomas in the U.S. Virgin Islands.

The cost is \$1029 per person, based on double occupancy. This includes round-trip ground transportation between Westboro and Logan Airport in Boston, round-trip air transportation from Boston to Miami, port taxes, meals, entertainment and a Data General "welcome aboard" party.

For reservations, send your name, mailing address, phone number, smoking or non-smoking preference, along with a check for \$200 per person, made out to "Crimson Travel," to: CARIBBEAN CRUISE, Mail Stop D232 in Westboro.

George Benson Tickets Still Available

Tickets remain for the Saturday, August 30-George Benson concert at the Great Woods Theater in Mansfield, Mass. The cost is \$17.75 per person. (Prices reflect a 10-percent discount for employees.)

Employees may obtain tickets by sending a self-addressed, stamped envelope along with a check, made payable to the "Data General Activities Committee," to: CONCERTS, Mail Stop C128 in Westboro.

Amusement Park Provides Day Of Family Fun

Last weekend's company outing to Canobie Lake Park in Salem, N.H. attracted more than 1000 employees and their guests. Rainy weather did not dampen their spirits as the group enjoyed unlimited rides and a barbecue lunch.

Rafting Trips Planned For The Fall

For the venturesome few, the Data General Ski Club has planned rafting trips along Maine rapids. A trip down the Kennebec River is planned for the weekend of September 12, and another rafting trip on the Penobscot River is scheduled for the weekend of October 10.

Both trips include: round-trip bus transportation, two-nights' double occupancy, rafting safety orientation, one full day of guided rafting, riverside steak cookout and breakfast.

Double occupancy for the Kennebec trip is \$186 per person, with a \$50 deposit due as soon as possible. Penobscot is \$193 per person based on double occupancy. A \$50 deposit for this trip is due no later than Friday, August 1. All prices include taxes and gratuities.

Registration forms and informational material may be obtained by writing to: RAFTING, Mail Stop 6-5 in Southboro.

Another Day Planned At Sturbridge Village

Data General employees can look forward to yet another day of fun at Old Sturbridge Village due to an overwhelming response for tickets. The Data General Activities Committee has added another day to the outing scheduled for Saturday, September 13.

Employees now may sign up to visit the historical park on Sunday, September 14. Both dates include a full-menu lunch and access to the many exhibits that recreate the 1830's agricultural community.

Softball Teams Organize For Tournaments

The Data General Softball League is sponsoring three softball tournaments for employees. Teams must have at least 15 players to enter. Tournaments will be round-robin or double elimination, depending on the turn-out, and all will start at 9 a.m. at the Knights of Columbus field in Ashland.

Scheduled tournaments are:

- Mixed - Saturday, July 26 and Sunday, July 27
- Competitive - Saturday, August 2 and Sunday, August 3
- One-Pitch - Saturday, September 13 and Sunday, September 14

Deadline to enroll a team for the mixed and competitive tournaments is Friday, July 18. Currently, two more competitive teams and up-to-four more mixed teams are needed for play. Sign-up for one-pitch continues until Friday, August 29. Interested employees should contact Steve Phaneuf at extension 7712 in Southboro to sign up.

Mini News is published weekly for the employees of Data General-Westboro. Material may be submitted for publication to Joy Ibraham, extension 4705, MS A235. Data General - An Equal Opportunity Employer.

DATA GENERAL ASKS: WHAT WILL YOUR OFFICE SYSTEMS COST YOU DOWN THE ROAD?

OUR CEO® BUSINESS AUTOMATION SOLUTIONS GIVE YOU THE LOWEST COST OF OWNERSHIP.

Bypass the high cost of other companies' office automation systems. With Data General's line of fully compatible computers. The industry leaders in productivity.

Our new MV/20000™ provides superior price/performance. Better than DEC's VAX™ or IBM®'s 4300 series. While our MV/2000DC™ sets the standards for departmental computing systems.

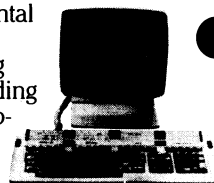

We take you beyond office automation. By integrating mainframes, PC's and applications into our industry-leading CEO Business Automation. And by cost effectively distributing your information resources.

We also protect your investment with our commit-

ment to industry standards in communications and data management.

It all adds up to advanced Business Automation solutions. To give you the lowest cost of ownership.

All of which makes Data General the best route to take. For more information, call 1-800-DATAGEN (in Canada call 1-800-268-5454). Or write: Data General, 4400 Computer Drive, MS C-228, Westboro, MA 01580.

Data General
a Generation ahead.
