

# POINT 4 MAINTENANCE: SERVICE AND SECURITY ON A WORLD-WIDE BASIS

POINT 4 Data Corporation understands how much your business depends on reliable, problem-free equipment. And we know that if you ever encounter a problem, you want fast, dependable service. That's why there are superior maintenance services available everywhere POINT 4 systems are installed.

## MULTIPLE SOURCES

Maintenance services for POINT 4 equipment are available from several sources around the world. Users have a choice of:

- Local POINT 4 Dealer
- Worldwide Maintenance Companies
- Independent Service Organizations

## LOCAL POINT 4 DEALER

Many POINT 4 Dealers provide complete maintenance services for their customers. These services, available on a contractual or emergency basis, are performed by skilled technicians that have been trained and familiarized on POINT 4 equipment and carry an extensive supply of spare parts and components. All POINT 4 Dealers receive regular updates and bulletins that keep them informed of the latest changes, modifications and enhancements. They are in constant communication with POINT 4 Engineering and support personnel and have a vested interest in maintaining satisfied customers.

## INDEPENDENT SERVICE ORGANIZATIONS

POINT 4 provides training, documentation and spare parts to independent service organizations active around the world. These maintenance specialists supply quality local and regional service for POINT 4 products and peripherals. Maintenance is their only business, and, as a consequence, their service is generally of a superior caliber.

For the name of the service organization in your area, call your POINT 4 Dealer or POINT 4 Data Corporation at (714) 863-1111.
